My dear Col

I follow your suggestion & enclose my reply to your fathers kind letter, to you.  
May I ask you to forward it to him when convenient.

I should be very glad to have a conversation with you in reference to your fathers plans in Mexico, but think it unnecessary to put you to that trouble, as think I understand his views & feelings on the subject. My own feelings at times are sad enough, but I must strive against them.

I have heard that your father was erecting an observatory in Mexico, which I hope is true.  
My family unite with me in kindest regards to Mrs Maury, &

I am most truly yours  
R E Lee
