April. 23, 1928.

Dearest Folks:

Our Freshmen track team beat Roanoke High School 78 to 36. I think that is pretty good, because they had a good team. I got second place in the Pole vault. There were six boys who entered that event. I also threw the javelin. I did not do so well in that. Out of eleven boys who entered I was fifth. As I just started throwing it last Monday I think I will be able to improve a great deal. In the track meet we broke several of the school records.

The varsity track team also beat Richmond; This is the first victory of our track teams therefore we feel rather proud.

Yesterday I went with Mr. Morton to Buena Vista. He gave a very nice sermon. I enjoy the types of sermons that he preaches. He is one of my best friends in college.

I hope mother has a nice time in Chattanooga. I hope she meets the Swaffords and the Angles. They both were mighty nice to me while I was in their city. I know you will have a lovely time in Ky. I hope I will be able to return to that state someday and pay it a nice visit.

I am going to read a Spanish Parallel to-day. It has 196 pages of small typed pages of Spanish. I have already read over 25 pages and it took me 35 minutes. I do not dread this, because I love to read Spanish.

Father would it be all right fo me to to take Hist. this

summer. In some ways I dread going to Summer school for it is mi-

ghly tiresome studying twelve months out of the year. Summer after this I hope to give my brain a rest.

To-day is a bad rainy day. We have wonderful weather for a few days and then the clouds seem to burst and then the water pours.

Hamlet is being played over in Lynchburg and I would give any thing to see it. A year ago I would not have walked across the street to see it, but since I have entered college, I have a different view on those things. College certainly does make one enjoy the better things of life. I don't get any kick at all by reading a novel, but I do enjoy reading these tragedies and plays by the great authors.

I am enclosing a few of the cards that I have received so far asking for votes in the next school election.

To-morrow we are going to have a mock convention. This means that it is going to be a holiday. I am going over there and see how the conventions of our country are conducted. This is going to be a DEMOCRATIC convention and I dare say that Smith will carry three times more votes than any of the other men. I hope our next president will be Mr. Hoover. I have been studying along this line and have decided- decided that he is the logical man for the first man of our dear country.

Lovingly,

Stuart.
