NUMBER 31

## NOTABLE MEN SPEAK BEFORE STUDENT BODY

Dr. Thompson Will Open Meetings Sunday Morning In Chapel

ASSEMBLY MONDAY

Akagi, Rugh and Baron Meyendorff All Speakers of International Reputation

Every student and faculty member of Washington and Lee will be given an opportunity to meet four of the outstanding international lecturers during the next three days. Dr. W. T. Thompson, professor in Union Theological Seminary, Richmond, Arthur Rugh, secretary of the Y. M. C. A. in China, Dr. Roy Akagi, of Japan, and Baron Alexander von Meyendorff, a former member of the Russian Supreme Court, will give a series of lectures and informal discussions starting tonight and lasting throughout Tuesday evening.

These men are in Lexington as the representatives of the international association of the Y. M. C. A. and were brought here by the local Y. M. C. A. in conjunction with the history department of the university. They will address classes in History, Government and Criminology during their stay, besides the University Assembly at 1 p. m. on Monday.

Their engagements have been arranged as follows:

Saturday evening, 6:30. Fifty selected students have been invited to meet Dr. Thompson at a supper in the Baptist church, after which Dr. Thompson will address the group informally.

Sunday morning, 11 a. m. Lee Chapel.

Dr. Thompson will speak and G. T. Steuterman and R. C. Ammerman will furnish the music.

Sunday afternoon, 7:30 p. m. Lee Chapel.

A chorus from the Southern Seminary, Mrs. Florence Collins, director, will furnish the music. Two anthems and one solo selection will be rendered as specials. Dr. Thompson will speak.

Sunday night, 8:00 p. m., Baptist Church.

There will be a special sermon for students and all students are urged to attend to get Dr. Thompson's last messages.

Dr. Thompson will be staying with Mr. Patterson at 35 Jefferson avenue, and after church Sunday evening any student who would like to meet Dr. Thompson informally is welcomed.

Monday, 9:45 a. m. Dr. Akagi will speak before the class in Municipal government.

Monday, 11:15 a. m. Baron Von Meyendorff will speak before the class in Sociology.

Monday, 1 p. m. Gymnasium, University Assembly. Mr. Rugh and Dr. Akagi will each give short addresses.

Monday 5 p. m. Y. M. C. A. Room. The W. & L. Faculty will meet Mr. Rugh, Dr. Akagi and Baron Von Meyendorff informally.

Monday, 7:30 p. m. Lee Chapel. Dr. Akagi will speak for thirty minutes, after which there will be an informal forum discussion with Rugh, Akagi and Von Meyendorff on the platform. The faculty are welcomed at this meeting and to take part in any discussion.

Tuesday, 11 a. m. Baron Von Meyendorff will speak before the class in Modern Europe History and Criminology.

Tuesday, 9 a. m. Arthur Rugh will speak before the class in American Government.

Tuesday, 10 a. m. Dr. Akagi will speak before the class in American Government.

Tuesday, 11 a. m. Arthur Rugh will speak before the class in American Government.

Tuesday, 12 a. m. Dr. Akagi will (Continued on Page 3)

## Varsity Meets Virginia Tech In Blacksburg

Blue and White Five Determined to Maintain Clean State Record

Coach Smith left this morning for Blacksburg with his Blue and White court squad where they will attempt to duplicate their last month's victory when they oppose the V. P. I. Gobblers tonight.

The Techmen have slipped badly since their appearance in Lexington some weeks ago and are running a bad last in the fight for the State championship. Despite decisive defeats at the hands of the Generals, V. M. I., and two from the Virginia Cavaliers the Techmen have managed to get in some sensational playing against other opponents in in-between moments. The Gobblers conquered Alabama's Crimson Tide, which gained an extra period, one-point victory, over the Generals two nights later. They also outplayed and outscored the Duke Blue Devils for the first half of their game last week, but lacked the stamina to hold the lead.

Coach Moore has been greatly handicapped by the loss of Captain Mike Pearman, sensational little guard of the Blacksburg outfit. Pearman is still in the hospital convalescing from an appendicitis operation, and his absence is one which is giving Moore considerable trouble in attempting to find a capable substitute. The Gobbler mentor is trying out several different combinations in an effort to make up for the loss. Consequently it is impossible to predict the Tech opening line-up.

The Generals will go into the clash with their full strength. Both big and little varsities are in excellent shape and either are ready to start. Coach Smith, however, may use a combination of the two as was done against Duke last Wednesday night.

The Generals will enter the game decided favorites and are out to keep their slate clean against state opponents. A victory will make the clash with Virginia on the night of the February 21 the deciding game for the state championship as the Generals and Cavaliers are the only two quintets in the state to boast nothing but victories to date against Virginia opponents.

## Blue Matmen to Oppose Davidson

Conquerors of Carolina to Be Generals Competition Monday Night Here

The Washington and Lee matmen engage the strong contingent from Davidson College in the gym on Monday evening, February 13, at 7:30. Little is known of the strength of Davidson's team except that only a short time ago, they swamped the University of North Carolina's wrestlers, the score being 18 to 3. This would indicate that they have very good outfit, but since defeating the University of Virginia, the General matmen are looking for new worlds to conquer, and plan to give Davidson a real scrap.

The definite line-up has not yet been given out, and will be settled after the tryouts Friday night. Gresham and Holland are the 115 lb. candidates. Gresham is naturally favored to win because of his recent victories at Virginia and elsewhere, but Holland is still in the running.

Thompson or Nelson will fight in the 125 lb. class. Thompson has heretofore been the chosen candidate, but Nelson has shown a great deal of improvement lately and is expected to give Thompson a close battle.

Davis or Pomeroy will wrestle in the 135 lb. division. Tully, who has completely recovered from his slight illness, will wrestle in the 145 lb. section.

Madison (158), Captain Seligman or Rosenberg (175, and Hughes (Unlimited) complete the team. Coach Mathis would make no definite statement, but is very optimistic and seems to feel that the team is "right."

Officers of the Graham-Lee Society for this semester are as follows:

President, N. E. Hawes; vice-president, H. B. Busold; secretary-treasurer, Page Treadway. Judiciary Committee, J. P. Lynch; chairman, J. P. Davis, and K. L. Keil; Censor, C. I. Lewis; Critic, M. H. MacBride; program committee, H. O. Winston and R. O. Morrow.

## Curricular Changes Suggested Revise Degree Requirements

The galloping 20th century is fast nearing Washington and Lee—Washington and Lee with her "medieval" requirements for the A. B. degree. By next year radical changes will rock the present curriculum if the campaign now being carried on by certain leading members of the faculty proves successful.

Dr. Henry Louis Smith has appointed three committees to study the A. B. requirements here, comparing them to the requirements in other universities. One committee comes from the faculty, a second from the students and alumni, and a third is composed of educational experts from outside W. and L.

To judge from present comment among the faculty, the requirements almost sure to be changed are those of languages and mathematics. Fewer hours required in the language group, and the placing of Freshman mathematics on all elective basis are changes expected.

In the Alumni Building is a library of catalogs from the best known universities in the East, South, and West, along with the latest books on tendencies in modern college education. Here the committees will study the A. B. curricula in other universities before suggesting changes here.

### Fifty Years' Similarity

"For fifty years W. and L. has kept the same general requirements for the A. B. degree, with emphasis on foreign language syntax to the virtual exclusion of the newer natural sciences—English and Journalism. In the meantime over a score of new subjects have crept into what the catalog calls "Group 2" and "Group 3," without any corresponding change in the number of hours from each group that is required for a degree. That is the trouble, as one faculty member expressed it recently.

Some days ago President Smith laid the following queries before a faculty meeting:

"The only general four year degree now offered is Bachelor of Arts, with

its medieval requirements in foreign syntax and pure math.

"Why no general Bachelor of Science degree?"

"Group one foreign languages, includes seven subjects, with a total of fifty-two semester courses offered.

"Yet every student seeking a general four-year college training must take a minimum of 24 to 30 semester hours, viz., four to five years of study in this small group.

"Group two includes English language and literature, and 13 other subjects, offering over 130 semester courses in history, politics, sociology, education, commerce, finance, etc.

"Yet the only requirements for the A. B. degree are one elementary year in English composition and only eighteen semester-hours in all the rest.

"Group 3 includes mathematics and seven different sciences, with laboratories offering 109 semester courses. The requirements for all students are one year of college mathematics and only 18 semester hours of all the natural sciences.

### Would Decrease Electives

"Considering the practical importance to every American of biology, chemistry, electricity, meteorology, and mechanics, upon which our daily health and work depend, should trigonometry cut all the rest down to 18 semester hours? Why not require 24 hours as at present, but let the student select those which best suit his

(Continued on Page 3)

## Sixty Men Fall Under Automatic

Forty-Four Freshmen and Sixteen Old Men Failed to Make Requirements

A total of sixty men were caught by the automatic rule at mid-term. Forty-four of the men to whom this rule was applied were freshmen and the remaining sixteen were upper classmen.

Of the sixteen old men to fall under the rule, only seven were reinstated in the University. Most of the freshmen were reinstated, however. Some of the men who were permitted to enter the University again under probation from the semester automatic rule were reinstated for the entire semester, while others were given until mid-semester to make up their work.

The semester automatic rule for all students reads as follows:

A student automatically severs his connection with the University if, on any semester report, he fails to pass in nine semester hours of work or receives grade F in six semester hours.

There are several reasons for reinstatement which are plausible enough to permit a student to resume his studies in the University. Among these reasons there are two outstanding—if a student has never fallen under the automatic ruling before, his chances for reinstatement are good, and if his low grades are E's instead of F's he has another chance to make up his work before the end of the following semester.

## Troubadours To Hold Try Outs

Plans Are Being Made for Production of "The Butter and Egg Man"

The Troubadours will hold try-outs for their annual spring show Tuesday night at 7:30 in the Economics room of Newcomb Hall, according to an announcement made yesterday by Tommy Thames, president and Toot Gibson, business manager, of the organization.

The show for this spring will be "The Butter and Egg Man", which recently finished a run in New York after scoring one of the biggest successes in the history of the comedy stage. Thames secured the play through Stuart Walker, former stage manager for David Belasco, Mr. Walker having helped the president secure "Easy Come, Easy Go" last fall for its first amateur college presentation.

Since this play or one of its character, a stock play, will have to be used on account of lack of chorus material and a chorus-trainer, Thames and Gibson have secured quite a material reduction from the usual royalty. This was secured by having Samuel French, the releasers, communicate with the authors of the play on behalf of the Troubadours. Special permission to show in towns heretofore having the right reserved for local stock companies was also obtained, so that with an itinerary of good show towns, the Troubadours appear assured of a good trip this spring, barring faculty objection.

## IMPORTANT NOTICE Regular University Assembly

The next regular University Assembly will be held on MONDAY, FEBRUARY 13th in the GYMNASIUM. Attendance as usual, is compulsory.

The speaker is Mr. ARTHUR RUGH, for many years the Asiatic Secretary of the International Y. M. C. A., who is now on leave in this country.

His subject is "Some International Problems of Today." The usual Assembly Day schedule will be carried out on Monday, the bell ringing at

9:00, 9:45, 10:30, 11:15, 12:00

the exercises of the Assembly beginning promptly at ONE O'CLOCK.

## Baby Generals Swamp Quint From Virginia

Captain Williams Stars as Blue and White Yearlings Win Eighth Straight

The Washington and Lee freshmen basketball team proved too much for the Cavalier yearlings in Doremus gymnasium Thursday night when the locals passed, dribbled, and shot all around the Virginia quint for a 63-to-25 walk-way. With Captain Williams Cox, Jacobs and Hanna leading the scoring procession, the Little Generals led Virginia in a daze under an avalanche of field goals.

Cox started off the fireworks with four double ringers before the battle was three minutes old. Then "Snake" Williams and Red Hanna began to find the hoop. The Cavaliers, thrown into confusion by the first outburst, began to settle down to a desperate but futile defense which they kept up until the last quarter. At the beginning of the second ten-minute period, the Little Generals were off again and at half-time had piled up 36 points while their opponents had to be content with ten.

The climax of the freshman offense came immediately after half time. Jacobs went in for Cox, and Coach Davis' quint even surpassed its first half exhibition by rolling up 21 more markers before the time's whistle ended the quarter. During the last period, the game changed into a rough, open-floor struggle. The Washington and Lee offense had done its work, and Virginia began a fast attack which brought their total to 25 before the end of the game.

The Washington and Lee floor work was beautiful. A great majority of the points were registered from beneath the basket after lightning pass work down the floor. Williams gathered nine field goals and three free tosses during the evening and played a beautiful floor game, while Cox also rang the bell nine times, eight of them coming during the first half, Hanna accounted for 10 markers, and Jacobs, although he saw service only in the eventful third quarter, bagged five counters from the floor and one from the charity line. Pillely and Faulkner were all that could be desired in the guarding jobs. McClees was the high point man for Virginia with eight of his team's total, but Austin and Mennillo played (Continued on Page 3)

## Fifth Annual Prep Tourney Coming

March 1, 2 and 3 Dates Set For Yearly Preparatory Basketball Classic

The Fifth Annual High School and Prep School Tournament sponsored by Washington and Lee University will be held in the Doremus gymnasium on March 1, 2, and 3. Schools in the South Atlantic division—which includes Virginia, Maryland, North Carolina and Tennessee—will be eligible to compete for the awards.

Entry planks have been mailed to all the most prominent institutions in this district by Captain "Dick" Smith, director of the Tourney, and quite a number have made their entry to date.

John Marshall High School of Richmond, Virginia, was as claimed winner last year after their victory over Augusta Military Academy of Fort Defiance, Virginia. The Justices were awarded two places on all the tournament team—Sherman guard and Captain and King forward.

The teams will make their home in the different Fraternity houses during their stay in Lexington, and Saturday night, March 3 an informal will be given in the gym by the Cotillon Club for their entertainment.

Following are the trophies: Winner—Full sized silver basketball.

Runner up—bronze plaque. Members winning team—gold miniature basketballs.

Members runner up—silver miniature basketballs. All tournament team miniature gold charms.

Best foul shot—sweater. High point score in any one game—small loving cup.

Best all round player—bronze statuette.

These trophies will be given by firms in Lexington and also other firms, outside, interested in its success.

Mr. Billy Gooch will act as head of (Continued on Page 4)

## GENERALS FALL BEFORE FAST DUKE QUINTET

Blue Devils Avenge Defeat of Last Year—Winning by Score of 53-41

FIRST HALF CLOSE

Captain Spotts Scores Nineteen Points, Making Seven Free Throws Good

The Duke's Blue Devils upheld their reputation of being one of the fastest and cleverest quintets in the South when they outscored Coach Smith's Generals 53-41 last Wednesday night in Doremus gym. The team from Carolina was undoubtedly the fastest and best shooting outfit seen in Lexington this season. The Generals played a crack game and need offer no alibis; the extra speed and smoothness of the invaders was enough to give them an edge. Captain Spotts and his men fought all the way to the finish, and this was the only reason the Durham team's victory was not more decisive.

Coach Smith changed his line-up to make a combination of his big and little varsities, starting off with Capt. Spotts, Wood and Lowry from the little team, and Howe and White from the heavy five. From the opening whistle the game was fast and furious with both teams dropping in sensational shots. The Generals jumped into the lead by brilliant teamwork and clever shooting at the very start. Spotts, White and Lowry sunk them in a row before the visitors got going. From then on it was a see-saw affair with both teams shooting in spurts. Before the end of the half Duke spurted to the front and was out in front at the half by a six point margin with the score 27-21.

The second half was practically a duplication of the first. The Blue Devils added 26 to their total while the Generals were again held to six less than their opponents.

Individual playing featured the brilliancy of Werber for the visitors and Captain Spotts for the home team. Werber started off at a guard post but was soon shifted to center to watch the Generals' star. Werber was just about a match for Babe, being Spotts' first opponent all season to outscore him, counting for twenty-two points on ten baskets and two free tries. Babe was held to six from the floor but dropped in seven out of eight from the foul line, totalling nineteen in all.

The floorwork of Ernie Wood for the Generals was sensational. Wood covered the entire court at top speed without a let-up. Duke's main threats besides Werber were Jankoski, remembered as their plunging full back last fall, and Councillor who helped out with the defense although playing forward.

Summary:

Duke	G.	FG.	Pts.
Councillor, f	4	0	8
Jankoski, f	4	0	8
Candeer, f	3	3	9
Rodgers, f p	0	0	0
Kelly (c), c	0	3	3
Werber, g	10	2	22
Farley, g	1	1	3
Weaner, g	0	0	0
Bennett, g	0	0	0
Bennett, g	0	0	0
Totals	22	9	53

W. and L.	G.	FG.	Pts.
White, f	3	2	8
Lowry, f	4	1	9
Eigelbach, f	1	0	2
Spotts (c), c	6	7	19
Wood, g	0	1	1
Howe, g	1	0	2
Joynes, g	0	0	0
Totals	15	11	41

Referee, Summers.

## Spring Football to Start March 5

According to Captain Dick Smith, spring football practice will begin on Monday, March 5, and continue for six weeks. He states that the practice sessions will be long and strenuous. Members of both freshman and Varsity squads will be asked to report, and will be put through some stiff workouts by Coaches Herron, Smith, Palmer, and Davis. Practice this spring will follow the same general lines as in former years, except that they probably will be harder than ever before. The Generals intend to make an early start toward a championship eleven next fall.

### COLLEGE-EDUCATED JOURNALISTS

COLLEGE men are playing a big part in the newspaper field, an editorial in a recent issue of the Iowa State Journalist shows. The editorial, in part, follows:

"Sneered at in the past, jibed at often, the college man nevertheless has arrived. He is taking the high places in the world's work. Many surveys have proved it. The Wharton School of Finance and Commerce publishes the results of a survey which seem to establish the fact that the college man is taking the high places in journalism.

"Newspaper publishers used to say that they could teach journalism to a young man fresh from a delivery wagon in as short a time as to a young man from college. They knew then that this was an exaggerated statement; and they know now that such a statement is untrue.

"The Pennsylvania survey shows that of the 340 men filling positions on seventy leading dailies as managing editor, chief editorial writer, city editor, news editor, or head copyreader, 218 were found to be college men. The managing editors made 68 per cent of the total, 340; chief editorial writers, 77 per cent; city editors, 70 per cent; news editors, 51 per cent and copy desk heads, 51 per cent.

"There is encouragement in these figures. The criticisms of the editors represented in the survey, however, also should be taken into account.

"They say that the college men are admittedly better writers and editors than the non-college men; but they are not so good as reporters. They do not know how to get the news, or they do not care to get it. They have an ambition to write, or to edit the news, but not to be painstaking investigators of the facts that make the news."

### FUTURE TEAMS

THE WORK of freshmen athletic teams at Washington and Lee this year has been highly commendable. Judging from the quality of the teams produced so far, the Blue and White varsities in the various sports will have no shortage of promising candidates next year contesting for positions. The men who will graduate from the freshman ranks this year may not be able to step right into stellar roles, but they will compose a wonderful reserve for varsity teams and will eventually fill the ranks which are left open by graduation of older athletes. Intense training of freshman athletes in the same systems of play employed by the varsities is the prime requisite in preparing athletes for future duty on Big Blue Teams. In this way future varsity athletes are familiarized with certain systems, and are not required to learn it all over again. If coming freshman athletic teams keep up to the standard set by the "frosh" teams of the present school year, varsity teams of the future will have no cause to worry. The system has worked, and will continue to do so.—W. M. G.

### CURRICULAR REFORM ELSEWHERE

CURRICULAR reform is again engaging student attention in several colleges. The undergraduate reformers have taken fair notice of the criticisms overflowing current periodicals, and have adopted a vigorous style in attacking their campus problems.

The University of Washington Daily, after publishing a series of student criticisms of the university and its work, has summarized by blaming the faculty "for the lack of intellectual stimulus and study encouragement prevalent on the campus." The main draw-back it conceives as "the appalling over-emphasis on activities for activity's sake, that insistence on activities at Washington which results in the average collegian striving to be an activity hound from freshman days to the end of college." The faculty is blamed for having failed to eliminate superfluous activities, and the Daily presents the problem as one for the teachers to solve.

President C. D. Gray, of Bates College, has appointed a student committee of twelve to examine the curriculum and suggest modifications and changes. These students will carry on the work begun by a senior committee last year. Three other groups are working on the same problem, one composed of teachers, another of alumni, and a third, serving as advisory, of outsiders.

Students in the College for Women at Western Reserve University have selected representatives to serve as their agents in presenting to the faculty complaints against the curriculum. They are members of the student council, who will work in conjunction with a faculty committee, to whom they will make recommendations after passing on student complaints.

### The Gray Phantom

Tourists, as a general rule, are very docile. Many of them are actually chicken-hearted.

Several days ago a small, dignified, elderly man who was touring through Lexington, slipped away from his customary investigations of statues and tombs long enough to get a look at Washington and Lee. The smooth, rolling campus made a glimmering landscape before his appraising eyes. He approached closer, just in front of Washington college. The bulletin board there, caught his eye.

"Ah," thought he, "From this bulletin board I can truly get a representative idea of American university life and customs." And then his eye fell upon this sensational notice:

"Lost—during Fancy Dress—a Colt 22 long rifle automatic pistol. Finder call 307. Reward."

"What dances these boys must have!" was the tourist's only comment as he swiftly walked back to his machine.

And still that eerie notice stares from the bulletin board over the campus—in all its beauty and appealing tradition.

### President's Paragraph

No. 21, 1927-8

Your Most Important Studies

Far excelling all your college and university studies in personal interest and educational importance are these three:

First—the STUDY OF YOURSELF; body, mind, spirit, habits, attitudes and possibilities.

Second—the STUDY OF OUR AMERICAN CIVILIZATION; its history, development, characteristic, assets, and liabilities, and present problems.

Third—YOUR PROPER PLACE AND WORK IN THIS COMPLEX ENVIRONMENT; a social, civic and vocational study on which your happiness and success depend.

If you can make an A on these three courses, your college career will prove a splendid success.

### Coach Herron Played On Greatest Eleven

Glenn S. "Pop" Warner, present head-coach at Leland-Stanford University, California, has announced in a recent syndicate article that he regards the team that he turned out at the University of Pittsburg in 1916 as the greatest football team that ever played the game. It was his second year at the Smowly City institution, and as he explains it, "Joe Duff, the great Princeton tackle left me a wealth of excellent, well-coached material. In my first year, the fall of 1915, we were unbeaten, but the next year we won all of our games by large scores. Included in the list of victories were the scalps of Syracuse, Washington and Jefferson, Pennsylvania, Navy, and State College."

"Pat" Herron, one of football's greatest ends is one of that brilliant assemblage who is consistently garnering fame in the coaching profession. He is now head coach at Washington and Lee. Jimmie DeHart, halfback deluxe of the '16 aggregation preceded Herron at W. and L. and is now head coach at Duke University.

Warner's regard for Herron as an end is clearly shown by the fact that he has had the W. and L. mentor as right end on his "All-time All-American" up until this year, when he substituted Brick Muller, the immortal Stanford wingman for Herron.

Below is the line-up of the greatest team, according to Warner, to ever fight for Pittsburg:

"Red" Carison	End
"Tiny" Thornhill	Tackle
"Jock" Sutherland	Guard
Bob Peck	Centre
Dale Seis	Guard
"Bud" Siedel	Tackle
"Pat" Herron	End
"Katy" Easterday	Quarter
Jimmy De Hart	Halfback
Andy Hastings	Halfback
George McLaren	Fullback

### CURTIS LEE SOCIETY HAS REGULAR MEETING

The Curtis Lee Engineering Society held its regular meeting last night at 7:30 o'clock in Reid Hall. This was the first meeting of the new semester, and all members were present.

D. B. Cook presented a paper on "Refrigeration", which proved to be illuminating, and was much applauded by the members. Following this, other items of interest were discussed.

The next meeting of the society will be held at the regular time.

## P.A.

# suits my taste like nobody's business

I KNOW what I like in a pipe, and what I like is good old Prince Albert. Fragrant as can be. Cool and mild and long-burning, right to the bottom of the bowl. Welcome as the week-end reprieve. Welcome . . . and satisfying!

No matter how often I load up and light up, I never tire of good old P.A. Always friendly. Always companionable. P.A. suits my taste. I'll say it does. Take my tip, Fellows, and load up from a tidy red tin.

### Radical Changes Proposed for New W. & L. Curriculum

(Continued from Page 1)  
purpose and life work?  
"Why should every student be forbidden to take public speaking during his freshman year?"

"Do not the very numerous and arbitrary 'prerequisites' harmfully limit a desirable elective freedom? Why not let these 'prerequisites' be in most cases only 'advised,' instead of being made compulsory?"

"The excessive foreign syntax and mathematics requirements for the only cultural or general degree given (A. B.) practically destroy the School of Journalism, and make it almost impossible for social workers, public school teachers, and ministers to obtain the four year training in the social sciences, English, and public speaking they ought to take toward their degree. If the foreign language minimum were placed at one or two years and trigonometry made elective would not all these and scores of others be able to choose a more valuable and wiser course than is now available to them?"

**Studying Five Problems**  
The committees appointed by President Smith are working on five local educational problems. Within a few days they will present suggested changes for the vote of the faculty. The problems follow:

#### PROBLEM NO. 1

For non-vocational students desiring a general four-year college education Washington and Lee offers only one degree, the A. B., with a required minimum of four years of foreign language and one year of college mathematics.

Should not a general B. S. degree be offered for those students whose aptitudes and preferences lean toward the natural or social science?

#### PROBLEM NO. 2

The A. B. is the special cultural degree of the American college. A college A. B. graduate who is either totally ignorant of English literature or unable to write or speak correct English is certainly neither cultured nor well-educated.

Our present A. B. requirements in the English language, in its spoken and written use, and in its varied literature, are confirmed to one single freshman year of elementary rhetoric and composition, and the B. S. requirements is the same.

Is this either educationally wise or in accord with the present standards and practice of other first-class American universities of our type?

#### PROBLEM NO. 3

For the attainment of our only general, non-vocational degree, the A. B. is it in accordance with present-day practice and for the best interests of our students to require of all matriculates without exception a minimum of eight successful years of foreign-language study, four in the high school and four more at college?

For students entering with fifteen units and no conditions would not two years of foreign language before graduation be an ample minimum for the general A. B. degree?

#### PROBLEM NO. 4

Nearly a half-century ago all the undergraduate courses of that day were divided into three "Groups," which were rated as of equal educational importance. (See catalogue, 1927, pp. 88-94, 98-99, etc.)

Since then Group III has been much enlarged and Group II has been multiplied at least fourfold in courses, instructors, and range of subject-matter taught.

Have not these changes and the demands of a new era made a re-grouping both wise and necessary?

What present-day division of our present-day academic courses would you recommend?

#### PROBLEM NO. 5

We at present offer a B. S. degree to students who during their

(Continued from Page 1)

fast floor games. The whirlwind Washington and Lee attack in the early moments of the game had the Cavaliers in the air and most of their points came from desperate long shots. They were missing their few close opportunities badly. In the final moments of the battle, however, the Virginia quint began to function more smoothly, and sank a number of shots.

### NOTED LECTURES TO SPEAK TO STUDENTS

(Continued from Page 1)

Speak before the class in American Government.

Tuesday, 1:00 p. m. Arthur Rugh will speak for thirty minutes in Lee Chapel, followed by a fifteen minute forum with Akagi, Van Meyendorff and Rugh on the platform.

Tuesday, 5 p. m. Lee Chapel. Baron Von Meyendorff will speak for thirty minutes on European problems, after which there will be a forum with Akagi, and Von Meyendorff on the platform for the last session of the conference.

Dr. Akagi and Baron Von Meyendorff will stay at the Robert E. Lee hotel and Mr. Rugh at President Smith's. The faculty as well as the students are welcomed at all meetings, and it is hoped they will take part in all discussions. Jack Stuart will be in charge of all engagements of Dr. Akagi while here. Ed. Pilley will be in charge of engagements for Arthur Rugh and Dick Carver for Baron Von Meyendorff.

Any one who would like to meet any of these three men personally can arrange it by seeing one of these students.

for years of undergraduate life specialize in (1) Commerce, (2) Chemistry, (3) Civil Engineering, and (4) Electrical Engineering.

What arrangement should be made for the large number of undergraduates who are specializing in Education and in Journalism, and are looking forward to these two professions as their life-work? They are now practically barred from any four-year degree.

### Frosh Swimmers Lose To R. M. A.

The Frosh swimmers were defeated by a close margin—33 to 31 by Randolph Macon Academy at Bedford Monday. This was the second meet for Coach Twombly's men and although they were nosed out by the cadets they showed a marked improvement over their initial meet with A. M. A. last Friday.

Zachary was high point man for the Little Generals with two first strokes to his credit in the breast-stroke and backstroke. Among his teammates, Hobson was the only other to score a first place in the 220 yard dash. Martin and Janke also showed up well for the locals.

A return meet with A. M. A. here is scheduled for an early date and the men are working hard to average the defeat administered them by the cadets earlier in the season.

### FIVE ARE CONFINED AT HOSPITAL NOW

The five men who are under confinement at the hospital now are: D. N. Conn, R. J. Bolton, Gregg Kurth, H. C. Martin, and H. D. Stowe. All the men except Bolton are suffering with bad colds or mild cases of grippe. Bolton is trouble with sore throat and carbuncles.

Albion Dunn, cadet from Staunton Military Academy, who has been in the hospital here for three weeks with a fractured skull, is getting along much better. He received the injury when the car, in which he was riding, turned over on the Staunton road. The cadet was coming to see some of his friends here when the accident occurred.

### HORSE RACING SPONSORED

That horse racing, long dormant in Virginia, may soon be revived, is the prospect assured a committee sponsored by Norfolk interests with this object in view. A bill to permit racing with pari-mutuel betting in those communities that wish it has been favorably reported by a Senate committee, and is assured of backing in the legislature. It will meet with some opposition, however, from the prohibition and reform forces, which are already up in arms.

### Hybiscus Club to Will Meet Sunday

A meeting of the Hybiscus Club, a campus literary society, will be held Sunday evening to discuss the plausibility of another issue of the Periwig, the literary organ of the club. The first issue of the Periwig, which appeared during Fancy Dress aroused considerable comment, but the sales were not as large as had been expected. Thus far, 125 copies of the magazines have been sold.

If it is decided to publish another issue, a feature article, such as Sherwood Anderson's in the first issue, will be secured from some prominent American writer, in addition to numerous other contributions.

### GAMMA SIGMA EPSILON ELECTS NEW OFFICERS

Officers of Gamma Sigma Epsilon, national chemical fraternity, elected for this semester are: W. C. Magruder, president, J. G. Laytham, vice-president, and J. G. McClure, secretary-treasurer. The society is awaiting the return of Dr. Howe from Norfolk before it holds its next meeting. Several papers relative to recent developments in chemistry will be read at this meeting which will probably be held within the next ten days.

### Yearling Pugs Lose to S. M. A. At Staunton

Palmer and Lynn Only Blue and White Men to Win Bouts

The S. M. A. boxing team defeated the "Little General" "pugs" last night in Staunton, coming out on the long end of a 5-to-2 score. The gymnasium was filled with spectators, many of whom were girls from the adjoining schools.

Due to the inability of Noyes, frosh lightweight, to fight, the 115 pound class bout was forfeited. Crenshaw, 145 pound, lost by a decision after a close battle, which appeared to be a draw according to spectators. Faulkner, heavyweight, who won by a knockout in the last match with S. M. A., was greatly handicapped by a disabled hand, which made it impossible for him to "mix it up." After three rounds of distance sparring, his opponent, Smith, was awarded the bout by decision. Although the freshmen were handicapped by disabilities and the absence of one of the boxers, the S. M. A. team showed up much better than in their last match with the "Little Generals" which they lost.

The following is a list of the fighters and decisions:

- 115 pound class—Forfeited to S. M. A.
- 125 pound class—Won by Brady, S. M. A. from Cloud by decision.
- 135 pound class—Won by Palmer Myers, S. M. A. by decision.
- 145 pound class—Won by Trainer, S. M. A., from Crenshaw by decision.
- 158 pound class—Won by Lynn from Ehrig, S. M. A., by decision.
- 175 pound class—Won by Smith, S. M. A. from Faulkner by decision.

### University of Va. Alumni News Wants V. M. I. To Live

University, Feb. 2.—Carrying out of the proposal first to weaken and then to abolish Virginia Military Institute as a state school would be a calamity, according to an editorial contained in the current issue of the University of Virginia Alumni News which is now being mailed out to university graduates.

"It would bring shame upon the general assembly responsible for it, and this feeling would permeate many other states besides our own commonwealth," the editorial continues.

"V. M. I. must carry on, carry on with even greater distinction than in the past, and carry on if the money required must be begged, borrowed or stolen."

"Little or no fault can be found with the educational commission's recommendations regarding duplications, certain economies, liberal arts education for women, and graduate work.

"That pre-medical work should be confined to the university and not duplicated elsewhere and that no other institution should undertake instruction in law is sound sense. That graduate work should be concentrated here as well as strengthened admits of no argument.

"But with the idea of a chancellor for higher education we cannot concur. It would be doubtful if sufficient compensation would be paid to engage a competent man while if a man of the high ability required were engaged he would be a sort of super-president of all state institutions. If such an arrangement existed it is very unlikely that any outstanding man would accept the presidency of the individual institutions."

The editorial terms it unfortunate that the education commission seems to have been "proceeding on the theory that Virginia is a poor state as to resources and income. Such is far from being true as Governor Byrd's message to the general assembly abundantly proves.

### PRESIDENT BABY RUTH CO. PRAISES COLLEGE

Best New Year's resolution any Dad could make is to give his son a college education.

College education is worth \$72,000. This is a profit of 1,200 per cent on an original investment of \$6,000, which is the average total cost of a four years' course in college.

Deducting the cost of the education itself, the student adds to his future income at the rate of approximately \$15,000 a year during the time he is in college.

As classes are held only five days a week, this means potential earnings of \$70 a day to the student for each spent in the class room.

These statements were made by Otto Y. Schnering, president of the Baby Ruth Candy Company, who is an alumnus of the University of Chicago, in an address at Chicago.

"A college education is not only very essential in modern business but highly profitable, if the student spends his time in real study," Mr. Schnering said. "The annual average income of a high school graduate is \$2,200 and that of a college graduate \$6,000. Total earnings of the two classes of men up to the age of 60 are approximately placed at \$78,000 and \$150,000. This gives the college graduate a lead of \$72,000 over the high school youth.

"This is the age of specialization and scientific management in business in which a college education is becoming almost an absolute necessity."

### Debate to Feature Graham-Lee Program

Featuring the Graham-Lee Literary Society program Saturday is a debate: Resolved; that the passing grade in the W. and L. Law School should be the same as in the rest of the university. M. H. MacBryde and K. Keil will speak for the affirmative, while R. A. Merritt and R. O. Morrow will uphold the negative.

The rest of the program consists of three speeches. They are a declamation by J. P. Davis, a recitation by C. J. Lewis, and a speech "The Political Heavens" by H. B. Busold. Visitors are welcome to the Graham-Lee meetings. They are held every Saturday night at 7:30 in the hall on the third floor of Washington College.

### February 22 to Be Full Day of Rest

There will be no University assembly or other function on Washington's birthday, February 22, it was announced today. The students will be given a full holiday, Mr. Mattingly stated, no arrangements having been made for any proceedings to take place. This holiday, which comes on Wednesday, will allow the student a day of sleep, or a mid-week trip to Lynchburg if he so desires.

DR. ROY H. AKAGI

Dr. Akagi, who is one of the speakers here during the next three days, enjoys a wide reputation as a student of world problems and as a historian. He is especially noted for his lectures on the Pacific relations of the United States.

Coming to this country in his youth, he has received an unusual education even for an American. He has taken degrees at the University of California, University of Chicago, and at Harvard.

### PROF. SELVAGE TO TEACH HERE THIS YEAR. FORMER PROF. OF MARSHALL COLL.

Professor Watson Selvage, graduate of Dartmouth college, was the only new addition to the faculty for the second semester. He enters the psychology department of which Dr. William Brown is head. He was formerly in the faculty of Marshall college, Huntington, W. Va.

Professor Selvage, after having graduated from Dartmouth, did some of his preparatory work in England and traveled extensively. He is temporarily residing on Jordan street.

### "Always The Same" says Pipe-Smoker

Charleston, S. C. February 10, 1927

Larus & Bro. Co., Richmond, Va. Gentlemen:

I've done a lot of pipe smoking. There's hardly a brand or a blend that I haven't tried out at some time or other.

But speaking of smoking tobacco that brings real enjoyment, and never changes, I want to say that there is just one tobacco that gives me real enjoyment in my pipe—Edgeworth.

I have used Edgeworth Ready Rubbed and Plug Slice for over five years, in all climates and under all conditions, and I find it always the same. It is always mellow and moist, and its genuine flavor lasts. There is no bite or parch in Edgeworth, and the quality, whether you buy it in small or large quantities, is always perfect. Thanks to the manufacturers for their wonderful product, and I hope that Edgeworth can always be obtained by the undersigned.

Guy B. Beatty
