"We want to highlight communication techniques," Kaufman said. "It is important work because students need a higher level of awareness."

"Were just a small part of the national problem," she said.

"The only difference with the Republicans is that we make you pay for what we get," she said. "The idea of 'playing now and paying later' is a problem. The Republicans are offering prudent solutions to solid problems, long-term solutions in long-term growth."
Media mared by Flowers frenzy

This week's Time magazine claims the mainstream media in America "mired in unattractive remorse" in its coverage of the Clinton scandal. That she had a 12-year affair with Democratic presidential candidate Bill Clinton. Wrong. The press's most recent feeding frenzy was marked by anything but remorse.

After the Sunday talk shows, the Star published an estimated $13,000 to $15,000 to sell her story, members of the mainstream press figured they'd better cover the story lest their competitors scoop them. Heaven forbid someone might exercise bad taste before they did.

The ultimate example of this credo was the Washington Post. Under the banner "Wrong. The press's most recent feeding frenzy was marked by anything but remorse," reader might get the idea that the Post made a habit of not reporting everything. It was making it hard to have his job eliminated. If the Post really printed everything it found out about, it wouldn't need a managing editor, whose job as though it was to decide which stories should be printed. Editors are the human filter built into the mainstream media.

Similarly, television executives argue that allowing cameras through the front door of the White House (the "coverage" of the Palm Beach rape case) is the same as allowing reporters to cover the trial of all the soap operas on television. Without them, the press would be a simply babbling nuisance that harms privacy and adds few.

HIV-infected alumnus pushes playing cards

By JONETTA BAPTISTA

Washington and Lee alumnus Edwin Wright is one of the millions of people in the United States infected with the human immunodeficiency virus.

"I'm not the first W&L grad who has been stricken with this disease," said Wright, "but I know that I am not alone." He went on to explain how he first learned about his condition.

"I was diagnosed with AIDS in 1982," Wright said, "but I continued to deny it for over five years. At that time, I was not aware of the AIDS Project Hotline that existed, so I just ignored the diagnosis."

Then in 1987, Wright admitted his homosexuality and began to feel guilty about his plight. He joined the human immunodeficiency virus support group, "the possibility was felt healthy, so he resisted his doc-

Wright tested HIV positive in 1985 and has been working to help others afflicted with AIDS ever since.

"If someone is going to be quarantined for the rest of your life, you have to learn how to live with it," Wright said. "I've always been an optimist, so I try to look on the bright side of things."

Wright said that when he was diagnosed, he thought his life was over. He was afraid he would die young and leave behind his friends and family.

Wright said he has been able to overcome his fear by "playing it close to the vest." He said he has been able to live a normal life despite his disease.

Questions for the EC officer candidates:
1. What is your opinion of the Confidential Review Committee?
2. What do you think of the proposals to move Fraternity Rush to Winter Term?
3. What do you think the role of the EC should be in administering the Honor System?

Answers from the candidates:

Presidential Candidate
Josh MacFarland, '93
Class of '93

1. "The CRC should only resolve issues in handling cases of sexual assault. TheCRC should be able to handle matters involving harassment.
2. "There is no need for winter rush. I do not see how full house rush would help...but more house progress would help.
3. "The job of the CRC is to uphold the honor and integrity of the student body...as well as to maintain the autonomy of the student government.
4. "The CRC is a vital and necessary component, though its burden has yet to be defined. Sexual harassment and sexual assault are two very different issues and they should be treated as such.
5. "Winter rush obviously takes a lot of personal and professional pressure...the CRC should be able to handle matters involving harassment.
6. "The CRC should be able to handle matters involving harassment.

Vice-Presidential Candidates
James Hutton, Class of '94
Andrew Schneider, Class of '94

1. "I think the student body as a whole does not understand the CRC. The CRC should be able to handle matters involving harassment.
2. "Moving rush would create a more realistic period of time for the students...houses would spend an excessive amount of money on rush. This proposal is up to accepted, the university would have to provide a Student Center where students could participate in the same activities offered at fraternity parties.
3. "The CRC must not only enforce the honor system and defend itself against offenders, but also set the example for the W&L community by integrating and living under this code.
4. "The system could be abolished. It is a violation of the Five Point Plan. The CRC itself is a good thing as long as it would be accountable to the student body...Members should be appointed by the faculty and approved by the EC.
5. "It is a great proposal. It would take a lot of pressure off freshmen and give them time to adjust...before they choose a fraternity.
6. "I think their role entails both education of incoming freshmen and assistance with administering the honor system.

Secretarial Candidates
Ashley Hackney, '94

1. "The CRC is effective now because the concept is in place. Members like the CRC handle do not belong in favor of forcing anyone into the EC. They are handled by someone who is experienced.
2. "The tradition of fall rush is based on traditions and presentations. CRC surely gives freshmen something to identify with and gives them a base.
3. "The CRC should operate as outlined in the White Book...to protect the integrity and the honor code of the university. It should make sure the sense of honor of General Lee's time continues today.
4. "The CRC is a valid and necessary component, though it borders on yet to be defined. Sexual harassment and sexual assault are two very different issues and they should be treated as such.
5. "Winter rush obviously takes a lot of personal and professional pressure...the CRC should be able to handle matters involving harassment.
6. "The CRC should be able to handle matters involving harassment.

Robyn McCord, '93

1. "The CRC is a valid and necessary component, though its burden has yet to be defined. Sexual harassment and sexual assault are two very different issues and they should be treated as such.
2. "Winter rush obviously takes a lot of personal and professional pressure...the CRC should be able to handle matters involving harassment.
3. "The CRC should be able to handle matters involving harassment.

MacFarland, Class of '93

1. "I think the student body as a whole does not understand the CRC. The CRC should be able to handle matters involving harassment.

5. "Winter rush obviously takes a lot of personal and professional pressure...the CRC should be able to handle matters involving harassment.
6. "The CRC should be able to handle matters involving harassment.

Betsy Kleiner, '93

1. "The CRC should handle all offenses outside the honor system, such as student misconduct. It may start dealing with cases of racial and sexual harassment.
2. "It's hard to divide where the SCC should stop and the CRC should take up. But we definitely need the CRC.

Richard Burke, '93

1. "I can bet better about that by saying what the SCC should not handle. It should stay out of the social life of the university. The SCC is in dealing with issues that are not being a guy, I can't speak from personal experience as to which is necessary...but it is not time for winter rush. The SCC should stop and the CRC start dealing with cases of racial and sexual harassment.

Reggie Aggarwal, '94L

1. "The CRC should probably handle matters under the EC's jurisdiction...like getting drunk and breaching a window. If a house gives a member 10 hours of community service, the SCC would probably give them the same treatment. The CRC should handle the CRC's jurisdiction.

Blair Hasson, '94

1. "The CRC is not the correct avenue for any of the matters that come to the CRC. Handling several of the cases...the SCC should handle the case.

2. "There are some good things and some bad things about winter rush. Winter rush would allow guys to get to know each other better, but we are not as ready.
3. "The CRC should handle matters of the honor system. Sometimes in investigations of EC, the CRC could make sometimes.

4. "The job of the CRC is making sure the CRC is not the right place for minor matters.

The board might appoint more than one person for any post. Apply by Wednesday, Feb. 26 with a resume and letter of interest to the Publications Board. Mail your application to board President Rick Peltz, P.O. Box 40, Lexington, or deliver by hand to Rick, Gaines 424C. Interviews are mandatory and will be held on Monday, March 2, between 8 and 11 p.m. You will be contacted to arrange a time. Call Rick at 464-3775 with any questions.

Generals hang tough at Virginia Wesleyan, 86-74

By JAY JOYNER
The Sports Editor

On Wednesday, the Washington and Lee basketball team traveled to Norfolk to take on the Old Dominion Athletic Conference's top team. The Generals, heading for the final ODAC Tournament spot with the Athletic Conference's top team, faced off against Virginia Wesleyan, 86-74.

W&L scored the first seven points of the game, inspired by senior Mark Melton's three-pointer, but VWC responded with 15 straight points of the game sparked by senior Mark Melton's three-point shot, but W&L cut the lead to 75-71 with 2:40 left. The Marlins, though, didn't break and made their free throws down the stretch to hold on for the win. The loss drops W&L to 5-14 and 3-11 in ODAC play for the season.

Brown caps winning month with Phi honor

**By SEAN O'BRIEN**

There has been a recent surge in the number of stories featuring the Generals, possibly due to the team's recent performances. In this month's edition, we will take a closer look at the Generals' season so far, with a focus on their recent wins.

**The Generals' Recent Wins**

In the most recent basketball game, the Generals faced off against the Roanoke College team. The game was a close one, with the Generals leading by just a few points at halftime. However, the Generals were able to pull away in the second half, winning by a score of 80-69. This victory was especially significant as it was the Generals' third straight win, and the team is now 12-6 on the year.

**The Generals' Season So Far**

The Generals' season so far has been impressive. The team is currently 12-6 on the year, with a record of 7-2 in ODAC play. The team has won three straight games, and is currently in the top three in the ODAC standings. The Generals have been led by senior guard Jon Nathan, who has been consistently scoring in the double digits.

**The Generals' Upcoming Games**

The Generals' next game is against the University of Mary Washington. The game is set for Saturday, February 15, at 2 pm. The Generals are looking to continue their winning streak and maintain their position in the ODAC standings.

**Brown Caps Winning Month with Phi Honor**

Jeff Brown has had an exceptional month for the Generals. In his most recent game, he scored a career-high 31 points, leading the team to a 98-76 win over the Maroons. Brown has been a key player for the Generals this season, and his performance has been crucial to the team's success.

**Brown's Impact on the Team**

Brown's performance has been a catalyst for the Generals' success. His ability to score consistently has been a key factor in the team's recent wins. The Generals' head coach, Page Remillard, has praised Brown's contribution to the team, saying, "He has been a key player in our recent success. His ability to score at a high level has been crucial to our success."
