

From The Rockbridge County news May 1865

Seventy Five years ago - May 15, 1890

Honorable J. R. Tucker has had an office building erected on the south side of his dwelling. We understand that the law classes of Washington and Lee University will meet Mr. Tucker at his law office in the future.

1981-02A early June plants  
as best can be seen. A few  
dark spots are between potted and  
outdoor plants also. Potholes and  
holes from antpodes (see 1981-01) are  
still visible. All new growth  
is healthy.
