

Lexington, Va.

May 3, 1934.

The the committee, in a meeting with the Lexington School Board for the purpose of securing another two years to what we have to conclude a four year High School, were given the following information necessary to securing the same:

The requirement to the establishment of a full four year High School on part of the patrons is the payment of an annual tuition of twelve dollars (\$12.00) per year for each high school pupil.

With the undersigned patrons of the Luthern Downing School Department, agree to pay the sum of \$12.00 per year, per pupil without reticence to secure for our children the advantage of a four year High School.

Signed:
