MILITARY INSTRUCTION.

In addition to Fortification and Gunnery, instruction and exercises in military tactics will be given by the Cincinnati Professor, whenever a class of sufficient size can be formed.

APPARATUS, LIBRARY AND CABINET.

The College has an excellent Chemical and Philosophical Apparatus, which cost about five thousand dollars, and is kept in good order.

The Library contains about two thousand five hundred volumes; those of the two literary societies, three thousand five hundred in the aggregate. Provision is made for the gradual increase of the College Library, and the Societies display a highly commendable zeal in this case.

The Cabinet contains about 3,000 specimens, well adapted to illustrate the Sciences of Mineralogy and Geology.

RELIGIOUS AND MORAL CULTURE.

This is accounted of primary importance; as the increase of intellectual power is not a benefit or a blessing, unless placed under the controlling influence of right moral feeling. Our means of securing this all-important

end, are the regular morning and evening worship of the College assembled as a family; this consists of reading a portion of sacred Scripture, singing and prayer; Bible recitation on Sabbath; and the public lecture in the Chapel. Students are also required to attend one other public exercise on Sabbath, in such place as their parents or guardians may direct. There is access, regularly, to service in the Presbyterian, Baptist, Methodist, and Episcopal churches; and of course we exercise no constraint as to which they shall attend, unless specially requested by parents. With these are combined the parental vigilance of members of the Faculty, who have rooms in the College, and spend a large portion of their time in them. If these appliances, together with frequent private, kindly conference with the students, fail of securing upright moral deportment and application to study, then, with conscientious severity, we carry out our law, Chap. I. 12: "The faculty shall require of all students, a strict obedience to the College Laws and Regulations; and they shall, in no case, suffer a disorderly, immoral or negligent student to continue in the College, unless he soon amend his conduct after being duly admonished." Parents may rely upon us, that we will not allow any youth to stay here, if we have reason to believe him endangering his moral welfare by the formation of bad habits.

LOCATION AND TRAVELING FACILITIES.

The geographical position of this College commends it to a very wide range of country. The whole of Virginia, west of the Blue Ridge, except the northwestern corner of the State and a considerable portion that skirts its southeastern base, will find access to it easier than to any other College. Students from Eastern Virginia can reach Lexington from Richmond or Alexandria in 14 hours. The Central Rail Road reaches within twenty miles of Lexington.

The unrivalled beauty of its mountain scenery, contribute not a little to its advantage, in the view of all persons who duly appreciate the power which the sublime scenes of nature exert upon the mind, and especially upon the youthful mind. It is not possible that the eye of youth, under a course of intellectual training, should continually rest upon our undulating hills and rise to the summit of our majestic mountains, without lifting the spirit to something of their own sublimity.

The students lodge in the College rooms, unless, for special reasons, they are excused by the Faculty. They provide their own furniture, which can always be obtained in the town on fair terms.

All parents or guardians who give money to their sons or wards, to pay any portion of their board in advance, as is usually done, are advised to require the immediate transmission of a receipt for the amount, as young men are often tempted by the possession of money, to waste it in extravagance or vice. And if parents or guardians desire that their sons or wards should make bills with the merchants in Lexington, they are requested to inform the Faculty of that desire; and in case bills are made contrary to law, they are especially requested not to pay them, but forward them to the Faculty.

Since 1834, the Faculty have been required by an order of the Board, to admit to all the privileges of the College, *tuition free*, all *indigent young men*, of good character and talents, who may apply for such privileges.

SOCIETIES.

The Graham Philanthropic Society was founded in A. D. 1809. It has two thousand volumes in its Library.

The Washington Literary Society was founded in A. D. 1812, and has one thousand seven hundred volumes.

The halls of both are tastefully fitted up, and though, not by any means as capacious as is desirable—indeed, *necessary* for pleasant and profitable public speaking, yet they are made the theatres of much exciting, emulous discussion, essays and criticisms, greatly conducive to the welfare of the College and to the students' preparation for public employment.

THE SESSION—COMMENCEMENT.

The next Session opens on the second Thursday (13th) of September. Punctuality in attendance at the opening of the Session is of the utmost importance. *Deficiencies* are often due to missing or neglecting the *first lessons*.

The Commencement Exercises will take place on the last Thursday in June.

There will be no recess during the Session, except on Christmas day.
