SOME ITEMS IN THE HISTORY OF THE UNIVERSITY.

The charter of what is now known as Washington and Lee University was first granted in 1782 to Liberty Hall Academy, a school established by the early settlers of the Valley of Virginia, in 1749, and until the Revolutionary War called The Augusta Academy.

h June, 1888.

Sept., 1888.

Jan., 1889.

Jan., 1889.

June, 1889.

June, 1889.

June, 1889.

June, 1889.

June, 1889.

In 1796, General Washington bestowed upon Liberty Hall Academy James River Company stock, valued at \$50,000, voted to him by the Commonwealth of Virginia in acknowledgment of his services in the Revolution, but accepted by him on the express condition that he should be permitted to endow therewith some institution of learning. The name Liberty Hall Academy was then changed to Washington Academy, and this in 1813 to Washington College.

In 1803, the Institution received the further endowment of \$25,000 from the Society of the Cincinnati, and in 1826 a gift of \$40,000 from John Robinson, a soldier under Washington. In honor of these munificent benefactions, the Trustees established the "Cincinnati Professorship of Mathematics," and the "Robinson Professorship of Chemistry."

In 1865, General Robert E. Lee accepted the Presidency of Washington College, a position which he held until his death, in 1870.

In 1871, General G. W. Custis Lee succeeded his father in the Presidential Chair, and in the same year the Legislature of Virginia changed the name of the Institution to its present corporate title—The Washington and Lee University.

In addition to the munificent gifts just mentioned, it is deemed proper to note more recent contributions to the funds of the Institution. The names, however, can be here inserted of those only whose contributions exceed or approximate \$5000.

Hon. Cyrus H. McCormick, Chicago, \$20,500.

TRUSTEES of estate of Hon. Cyrus H. McCormick, \$20,000.

Mr. W. W. Corcoran, Washington City, \$30,000.

COL. THOMAS A. SCOTT, Philadelphia, \$60,000.

MR. R. H. BAYLY, New Orleans (a bequest of which one-half has already been realized), \$70,000.

HON. GEORGE PEABODY, London (value at time of donation, in 1869, less expenses of litigation), about \$250,000.

Mr. RATHMELL WILSON, Philadelphia, a large and valuable library of scientific and literary works, estimated at \$6000 to \$8000.

DR. W. N. MERCER, New Orleans, one thousand volumes of select and especially valuable books and several oil paintings of great historical interest.

MR. LEWIS BROOKS, Rochester, N. Y., for the Museum, and its arrangement, as particularly described elsewhere in this catalogue, sums aggregating \$25,000.

MR. WARREN NEWCOMB, New York, \$10,000.

MRS. JOSEPHINE LOUISE NEWCOMB, New York, "Newcomb Hall," built at a cost of \$20,000, as a tribute of affection and honor to the memory of her husband, the late Warren Newcomb, Esq.

MRS. M. J. YOUNG, Houston, and other ladies of Texas, a large and costly organ for the Lee Memorial Chapel.

MR. H. H. HOUSTON, Philadelphia, has given the sum of \$7000, the interest on which is applied to the support of the Howard Houston Fellowship.

MR. F. O. FRENCH, New York, has established a Scholarship, yielding

annually \$300, for the benefit of undergraduates.

VINCENT L. BRADFORD, LL. D., D. C. L., a distinguished citizen of Philadelphia, in 1884, gave by his will to the University his law library, containing more than 1000 volumes, his splendid collection of paintings, and one-half of his large estate, after the payment of certain annuities—all subject to a power of appointment conferred on his widow. The expressed purpose of the gift is the endowment of a chair of "Civil Law and Equity Jurisprudence," to be called by the name of the donor; and if the fund prove sufficient, the endowment of the "Bradford Chair of Constitutional and International Law." And the will requires that the law library and paintings shall be kept up by the University by the appropriation annually of the sums of \$400 and \$500 respectively.

MRS. EVELINA H. BIRELY, Baltimore, \$5000 for the support of "The Luther Seevers Birely Scholarship."

COL. R. H. MAPLESON, New York, gave in 1883 a sum which, with accrued interest, is now \$5000.

The friends of the University in various parts of the country will be gratified by the strong testimony to its claims on the confidence of the public at large which is afforded in the high character of these, its patrons, as well as in the extent of their liberality on its behalf. Decisive as this testimony must be regarded, it would yet be greatly strengthened by adding the names, with the generous contributions, of other patrons, the number of whom prevents a more particular notice of their benefactions.

ORGANIZATION OF THE UNIVERSITY.

The essential features of this organization are:-

- I. The arrangement of the subjects taught into distinct elective Departments. Students may elect their own studies; but in each Department there is a prescribed course, which the student is required to pursue according to the degree of his preparation. Promotion is accorded upon actual attainments, and Certificates are conferred at the end of a complete course, after a thorough examination.
- 2. The adaptation of the several Departments to certain *Courses* of *Study*, to each of which is attached a Degree. Students are encouraged, as far as possible, to pursue and complete some one of these several courses.

Each of the two Academic Degrees of the University—BACHELOR OF ARTS and MASTER OF ARTS—can be reached by several different courses. In order that students may have scope for the exercise of individual taste and talent, the courses are so selected as to allow the largest liberty consistent with thorough culture.

The degree of Doctor of Philosophy is intended to encourage study after graduation. The degrees of Civil Engineer and Bachelor of Law are attached to these professional Schools. No degrees are conferred *in course*; all are based upon actual attainments in a prescribed course of study.

3. A system of Honors, Prizes, etc., adapted to the encouragement of general scholarship, as well as of distinguished proficiency in particular branches. These are increased in number as fast as the funds of the University or the liberality of friends renders it possible.

COURSES OF INSTRUCTION.

The subjects taught are assigned to the following distinct Departments. The student, under the advice of the Faculty, may select any studies for which he is prepared.

DEPARTMENT OF LATIN AND ROMAN HISTORY.

" Peabody Foundation."

PROFESSOR HARRIS.

In this Department there are four classes:

I. JUNIOR.

The work of this class consists largely in minute and constant drill in the Inflections, and in the elementary principles of Syntax. Persistent effort is made here, as elsewhere, to secure exactness and uniformity in pronunciation, with due observance of quantity.

The class reads usually in Livy, Cicero, and Vergil. Gilder-sleeve's Grammar, Tozer's Primer of Classical Geography, and Keightly's Mythology are used. (Five times a week.)

II. INTERMEDIATE.

The authors read in this class are chiefly Cicero, Livy, and Vergil. Systematic studies in Grammar form a part of the instruction. (Four times a week.)

III. SENIOR.

The reading in this class is mainly Tacitus, Horace, and Juvenal, with selections from the older poets, and specimens of early Latin.

Leighton's Roman History, and Cruttwell's Roman Literature are used. (Four times a week.)

Private parallel reading is expected of all the classes; a smaller amount from the lower, a larger from the higher classes. Exercises in composition, oral and written, form part of the instruction of all the classes, and as much of ancient Roman life is taught as is found practicable.

IV. PREPARATORY.

This class is for students who are not prepared for the Junior Class.

Gildersleeve's Primer, Smith's Principia, Cæsar, and Ovid are used. (Five times a week.)

DEPARTMENT OF GREEK LANGUAGE AND LITERATURE.

"Corcoran Foundation."
PROFESSOR WHITE.

In this Department there are four classes:

I. JUNIOR.

This class reads Xenophon's Anabasis and Memorabilia, Plato's Apology and Crito, and Homer; studies the Forms and Structure of the Language, illustrated by exercises in Greek Composition. Curtius's Grammar. (Five times a week.)

II. INTERMEDIATE.

This class reads Homer, Æschylus, Euripides, and Demosthenes. The Syntax is systematically taught by lectures and exercises. (Three times a week.)

III. SENIOR.

This class reads Thucydides, Sophocles, and Euripides. The History (Smith) and Literature (Jebb) are studied in this class. Candidates for Proficiency are expected to pursue a prescribed course of reading in addition to what is read in the lecture-room. (Four times a week.)

IV. PREPARATORY.

This class is intended for those beginning the study of Greek. (Three times a week.)

DEPARTMENT OF MODERN LANGUAGES, ENGLISH, AND MODERN HISTORY.

PROFESSOR HARRISON.

INSTRUCTOR: WAUCHOPE.

MODERN LANGUAGES.

The subjects taught in this Department are the French and German languages. There are two classes, Junior and Senior, each of which meets three times a week.

distinct alty, may

TORY.

Livy, and he instruc-

d Juvenal, arly Latin. Literature

a smaller Exercises ction of all aght as is

I. French.

I. JUNIOR.

One exercise at the board and one written exercise each week. Private parallel reading.

TEXT-BOOKS.

First half session, Easy Lessons in French; second half session, Whitney's French Grammar; Bôcher's Otto's Reader; Saintsbury's French Literature begun; Bôcher's College Plays.

II. SENIOR.

Chardenal's French Exercises (once a week) and original written exercises (once a week). Selected portions of the works of Corneille, Racine, Molière, Boileau, Voltaire, Victor Hugo, and Lafontaine are designated by the professor to be read in class and as parallel. As the Outlines of Historical French Grammar are taught, some knowledge of Latin is desirable. Monthly written translations from French into English are required.

TEXT-BOOKS.

Harrison's French Syntax; O'Connor's Choix de Contes; Mixer's Manual of French Poetry; Saintsbury's French Literature completed; Spiers and Surenne's Dictionary. For Etymologies, Brachet's Dictionary.

2. German.

I. JUNIOR.

Exercises twice a week. Private parallel reading.

TEXT-BOOKS.

Joynes-Meissner's Grammar; Whitney's Reader; Boisen's Collection of Märchen, or Otis's Grimm's Märchen; Baring-Gould's Story of Germany; Whitney's or Adler's Dictionary.

II. SENIOR.

Exercises twice a week. Private parallel reading.

TEXT-BOOKS.

Whitney's Higher Grammar; Select Plays of Goethe, Schiller, and Lessing; Krummacher's Parabeln; Wenckebach's Lieder; Heine's Reisebilder (Harrison's edition); Hosmer's German Literature; Whitney's or Adler's Dictionary.

3. English Language.

GENERAL.

The Junior Course in English is intended for students who have either never had an opportunity to study English Grammar at all,

or who instituted instituted drill in suitable principute wo pronur

Acad ation in nations at such early in

Stud the opt The though

language the Free inflection Saxon, to Char selection lish Co

ssion, Whitry's French

inal written ks of Cor-Hugo, and n class and ammar are ally written

xer's Manual Spiers and

Collection of f Germany;

er, and Lesss Reisebilder 's or Adler's

s who have nmar at all, or who desire to review here what they may have studied at other institutions. This course is devoted particularly to a thorough drill in English Composition, Analysis, and Punctuation, for which suitable text-books are provided. A course of reading in the principal English poets, from Shakspere to Tennyson, accompanies the work of the Junior year. Effort is made to correct errors in pronunciation, and to inculcate accuracy in the use of language.

Academic Students of the University, who contemplate graduation in any study, are *required* either to pass the Junior Examinations successfully, or to stand a Special Examination in English at such time as the Faculty of the University shall indicate (usually early in October).

Students who pass the Special Examination with distinction have the option of entering the Intermediate Class.

The *Intermediate* and *Senior Courses* in English are largely, though not exclusively, devoted to the historical study of the language as developed out of the Anglo-Saxon and enriched by the French and other languages. The history of the forms and inflections is carefully pursued. The masterpieces of the Anglo-Saxon, the Semi-Saxon, and the Early English period, from Beowulf to Chaucer inclusive, are systematically studied in illustrative selections, while throughout the Intermediate year ordinary English Composition, in continuation of the Junior year, is cultivated.

Parallel reading, lectures and exercises are further agencies employed to render the study of English during the two concluding years as wide and useful as possible.

As a regular part of the course students are required to read and report on articles in the current reviews specially designated by the professor. The Reading Room is amply furnished with material for exercises of this kind.

The prizes awarded by the new Shakspere Society and by the Early English Text Society for the best piece of work on some technical subject connected with Anglo-Saxon and the study of Shakspere, respectively, in the English Department, are promised for the future.

Some knowledge of Latin, French, and German is highly desirable for Intermediate and Senior students.

English Literature specifically, and Rhetoric are taught in the Department of Moral Philosophy and Belles-Lettres; and to complete a full English Course it is most desirable that students combine this Course with the Course of Special English indicated below.

SPECIAL.

I. JUNIOR.

English Composition, Punctuation, Sentence-Analysis are carefully taught in this Class. Weekly Exercises and Analysis. Parallel Reading. (Three times a week.)

TEXT-BOOKS.

Kellogg's Higher English Grammar; Abbott's How to Write Clearly; Minto's Prose Composition; Ward's English Poets, Vols. III and IV.

II. INTERMEDIATE.

The history of the English language is now taken up, and the study of English composition is continued by weekly exercises. Anglo-Saxon is begun at once. Exercises; parallel reading.

Ward, Vols. I and II, contains selections from all the great English poets, from Chaucer to Shakspere, and the four volumes of the work, as distributed between the Junior and Intermediate years, contain a very complete outline sketch of the period 1350-1850.

The careful study of at least one play of Shakspere (Furness's edition) is required of each student of the Intermediate Class who is trying for a distinction. The Shakspere prize is awarded to the student who stands highest in this and in the general examination. (Three times a week.)

TEXT-BOOKS.

Bain's Higher English Grammar; Morris's Elementary Historical English Grammar; Ward's English Poets, Vols. I and II; March's Anglo-Saxon Grammar; Sweet's Reader.

III. SENIOR.

The historical study of the language is continued, and an extensive course of Anglo-Saxon, Semi-Saxon, and Early English, from Beowulf to Chaucer (connecting with the Intermediate Course), is completed; lectures on the history and development of the language are given; the study of Gothic, as the foundation of English and Germanic philology, is begun, if there is time, by means of Skeat's edition of one of Ulfilas's Gospels.

A piece of special work will be required of each Senior student; to the best piece of which work the Early English Text Society's prize is then awarded. Private parallel reading is required. (Three times a week.)

TEXT-BOOKS.

Sweet's Anglo-Saxon Reader; Corson's Hand-Book of Early English; Harrison and Sharp's Beowulf; Whitney's Language and the Study of Language (for the general history of philology and its methods); Ten Brink's History of Old English Literature.

Works for General Reference:—Skeat's Etymological Dictionary of the English Language; Gilman's Chaucer; the Globe Shakspere; Abbott's Shakspere Grammar; Kington-Oliphant's and Earle's Works on English; Baskerville and Harrison's Anglo-Saxon Dictionary.

MODERN HISTORY.

INSTRUCTOR: WAUCHOPE.

TEXT-BOOKS.

Gibbon; Lodge's Modern Europe; Doyle's History of the United States; Green's History of the English People; Labberton's New Historical Atlas (1887).

DEPARTMENT OF MORAL PHILOSOPHY AND BELLES-LETTRES.

PROFESSOR QUARLES.

I. MORAL PHILOSOPHY.

Standpoint:—In Metaphysics, Natural Realism of the Scotch School, with special opposition to Materialism and the theory of Identity or Pantheism. Logic, Hamilton's System modified. Natural Theology, Christian Theism. Evidences of Christianity, Scriptural Orthodoxy. Ethics, Christian Intuitionalism, as opposed to Utilitarianism.

Course of Instruction:—In Metaphysics, Hamilton, with Lectures on the Sensibility and Will. Logic, Bowen. Natural Theology, Lectures. Christian Evidences, Fisher and Lectures. Ethics, Day and Lectures. (Six times a week.)

2. BELLES-LETTRES.

Course of Instruction:—In Rhetoric, Hart will be used for the simpler rules and analyses, and Whately for the more philosophical. In Literature, Shaw is the guide to an outer knowledge, while Taine leads to a clearer insight.

Frequent written exercises and a course of parallel reading are required. Shakspere is critically read.

The class in each of these subjects meets three times a week.

or student; tt Society's required.

3. CIVIL GOVERNMENT AND POLITICAL ECONOMY.

Course of Instruction:—In Civil Government, Young, Madison Papers, and Lectures. In Political Economy, Perry's larger work. (Three times a week.)

DEPARTMENT OF MATHEMATICS.

"Cincinnati Foundation."

PROFESSOR NELSON.

In this Department there are four classes:

I. JUNIOR.

In this class are taught Algebra, Geometry, and Plane Trigonometry. (Five times a week.)

In order that students may enter this class, they must be familiar with Arithmetic and with Elementary Algebra as far as quadratic equations, and have studied two books of Geometry.

II. INTERMEDIATE.

This class studies Spherical Trigonometry, Analytical Geometry, and an elementary course in Differential and Integral Calculus. (Three times a week.)

III. SENIOR.

This class takes a more extended course in Analytical Geometry, Differential and Integral Calculus, and studies Determinants. (Three times a week.)

In all of the classes the students are subjected to rigid examinations in the class-room, and are carefully trained in making accurate demonstrations at the blackboard. Much importance is attached to the original solution of problems so selected as to afford applications of the principles taught in the class-room.

IV. PREPARATORY.

This class is intended for those who are not prepared to enter the Junior Class. It begins the study of Algebra. (Five times a week.)

TEXT-BOOKS.

Wentworth's Complete Algebra; Wentworth's Plane and Solid Geometry; Wells's Trigonometry; Puckle's Conic Sections, with Notes and Lectures by the Professor; Olney's General Geometry and Calculus; Byerly's Differential and Integral Calculus; Peck's Determinants.

DEPARTMENT OF APPLIED MATHEMATICS.

"Thomas A. Scott Foundation." PROFESSORS LEE AND HUMPHREYS.

In this Department there are three classes:

I. JUNIOR-Two Sections.

I. Descriptive Geometry, Shades, Shadows, and Perspective (Church); Topographical Drawing (Lectures).

2. First half session, Astronomy (Newcomb and Holden); second half session, Surveying (Davies), embracing Land, Topographical, Railway, and Mining Surveying.

Each student is required to adjust and use the surveying instruments, and to determine time, latitude, and azimuth.

II. INTERMEDIATE.

Stonecutting (Warren); Engineering Geodesy (Rankine, with lithographed notes); Steam Engine (Goodeve); Architectural Styles (Rosengarten); Practical Lessons in Architectural Drawing (Tuthill).

III. SENIOR.

Civil Engineering (Rankine, with lithographed notes), including stability and strength of structures, earthwork, masonry, carpentry, metallic structures, underground and submerged structures, lines of land carriage, collection, conveyance and distribution of water, works of inland navigation, tidal and coast works.

In each class the text-books are supplemented by lectures.

Students are required to make architectural, topographical, and mechanical drawings throughout the entire course. As much time is given to this and other practical work as possible without serious interference with the theoretical instruction.

Candidates for the degree of C. E. are required to submit a thesis, on some assigned subject, to the Professor of Applied Mathematics.

For entrance into the classes of this Department the following are required:

Junior Class: - Finish the Junior Class in Mathematics.

Intermediate Class: - Finish the Intermediate Class in Mathematics, and finish or take the Junior Class in Natural Philosophy. Senior Class:-Finish the Senior Class in Mathematics, the

red to enter Five times a

lid Geometry; and Lectures yerly's DifferJunior Class in Natural Philosophy, and finish or take the Senior Class in Natural Philosophy.

The principles of fortification and gunnery will be taught to

students who wish it.

Capable and diligent students who are prepared to enter the Intermediate Class in Mathematics may take the degree of Civil Engineer in three years, and the following order of studies is recommended:

First Session:—Intermediate Mathematics, Junior Applied Mathematics, Chemistry, and Junior French (or Junior German). Eighteen recitations per week.

Second Session:—Senior Mathematics, Intermediate Applied Mathematics, Junior Natural Philosophy, Senior French (or Senior German). Sixteen recitations per week.

Third Session: —Senior Applied Mathematics, Senior Natural Philosophy, Mineralogy, and Geology. Thirteen recitations per week.

DEPARTMENT OF NATURAL PHILOSOPHY.

" Mc Cormick Foundation."

PROFESSOR MORELAND.

In this Department there are two classes:

I. JUNIOR.

This class studies Elementary Mechanics and Physics. All members of the class do experimental work on such subjects as the measurement of linear dimensions and of capacity, weighing, specific gravity of solids and liquids, Boyle's law, velocity of sound, laws of reflection and refraction of light, measurement of focal distance of mirrors and lenses, simple experiments with the spectroscope and the polariscope, general experiments in electricity at rest and in motion, measurement of electrical resistances in the cell and in the external circuit, general experiments with magnets, etc.

The solution of a large number of problems in both Mechanics and Physics is required. To enter this class students must be prepared to enter the Intermediate Class in Mathematics. (Five times a week.)

bran expeand the

II. SENIOR.

This class studies Analytical Mechanics and one or more branches of Physics, such as heat, light, or electricity. The experimental work is continued. Students may take this class and Senior Mathematics the same year, but it is better to finish the Mathematics first. (Five times a week.)

TEXT-BOOKS.

Dana's Elementary Mechanics; Glazebrook and Shaw's Practical Physics; Stewart's Physics; Michie's Analytical Mechanics; McCulloch's Mechanical Theory of Heat; Airy's Undulatory Theory of Optics.

Books of Reference: -- Maxwell, Thomson, Tait, Jamin and Bouty, Mascart and Joubert, Verdet, Fresnel, and others.

DEPARTMENT OF CHEMISTRY, MINERALOGY, AND GEOLOGY.*

"Bayly Foundation."

PROFESSOR BROWN.

In this Department there are two classes. For entrance, a knowledge of the subjects taught in the Junior Class of Natural Philosophy is recommended.

I. GENERAL CHEMISTRY.

The instruction in this class is given by experimental lectures and recitations. From time to time the solution of problems and written exercises are required.

For the certificate of distinguished proficiency in this subject, a course of private reading is prescribed.

The attempt is made in this class to give a general knowledge of Chemistry and its applications by an accurate study of the elements and their better known compounds, inorganic and organic, and to show their relations, both physical and chemical, to each other.

Incidentally attention is called to those elements and compounds of value in the arts, their methods of manufacture are noticed, subordinating, however, the purely technical details to the general principles involved. (Six times a week.)

^{*}Changes will be made in this Department which will be announced after the meeting of the Board of Trustees in June, 1888.

TEXT-BOOKS.

Richter's Text-Book of Inorganic Chemistry; Remsen's Organic Chemistry; Remsen's Theoretical Chemistry.

For Reference:—Fownes' Chemistry; Roscoe and Schorlemmer's Treatise on Chemistry.

II. MINERALOGY AND GEOLOGY.

In this class during the first part of the session Mineralogy is studied, during the latter Geology. A knowledge of Chemistry is required.

The course in Mineralogy comprises a study of Crystallography,

Physical, Descriptive, and Determinative Mineralogy.

The course in Geology aims to give a general view of the science in its present condition. (Three times a week.)

TEXT-BOOKS.

Dana's Text-Book of Mineralogy; Le Conte's Elements of Geology.

For Reference:—Dana's System of Mineralogy; Dana's Manual of Geology; Lyell's Principles of Geology; Rogers' Geology of the Virginias.

The studies in this Department are illustrated by an extensive Museum. (See on page 48.) The hills, mountains, and railroad cuts surrounding the Institution afford admirable opportunities for field work.

DEPARTMENT OF GEOLOGY AND BIOLOGY.

"Robinson Foundation."

PROFESSOR CAMPBELL.

"The Chair of 'Geology and Biology' embraces 'Geology, Animal and Vegetable Physiology, Hygiene, and Zoology."*

ELOCUTION.†

PROFESSOR BARBER.

Instruction in Elocution is given in two classes, Junior and Senior. Each class is divided into sections, when the number requires it.

The work in this Department is both scientific and artistic. As a science it investigates the laws of delivery, and it is our aim to

afford suc the stude decide wit art, it is or control of to each st

Geology,

nior and number

r aim to

afford such thorough instruction in the science of Elocution that the student may be able to analyze all forms of literature and decide with certainty as to the proper manner of delivery. As an art, it is our aim so to drill the student that he may have complete control of all his expressive powers, and be able to apply artistically to each style of composition its appropriate form of expression.

The course will embrace *Vocal Culture and Modulation:*—Training of the Vocal Organs, Diaphragmatic Breathing, Placing and Projection of Tone, Control of Various Qualities of Voice, Development of Power, Eradication of Faults, Drill in Pitch, Force, Rate, Time, and Slides.

Gesture and Æsthetic Gymnastics:—Training of the Body as an instrument of Expression, Attitudes, Arm Movements and Hand Positions, Facial Expression, Development of Ease, Precision and Harmony, Gymnastics.

Articulation:—Phonetic Analysis, Drill on the Elementary Sounds of the Language to secure Delicacy, Accuracy, and Force of Utterance, Principles of Orthoepy, Syllabication and Accent, Pronunciation of difficult words, and of words commonly mispronounced.

TEXT-BOOKS.

Shoemaker's Practical Elocution; Campbell and Soule's Pronouncing Hand-Book; The Speaker's Garland; Shakspere's Plays.

SCHOOL OF LAW AND EQUITY.

CHARLES A. GRAVES, M. A., B. L.,

Professor of Common and Statute Law and Equity Jurisprudence.

HON. J. RANDOLPH TUCKER, LL. D.,

Lecturer on Constitutional Law.

HON. HUGH W. SHEFFEY, LL. D. (Late Judge, Circuit Court of Virginia),

Lecturer on Wills and Corporations.

This School furnishes full instruction in the Law of Real and Personal Property and of Contracts; in Mercantile Law; in the Law of Torts and Crimes; in Equity Jurisprudence; in Evidence, and in Practice and Pleading; and in International and Constitutional Law.

Hon. J. Randolph Tucker lectures daily for one month during the Fall Term on Natural Law, Government, and Constitutional Law. Hon. H. W. Sheffey lectures daily for one month during the Spring Term on Wills, including the Law of Executors and Administrators; and on Corporations, with especial reference to the rights, remedies, and liabilities of Stockholders.

The course is so arranged as to render possible its completion in one session of nine months. This enables diligent and earnest young men whose means or time is limited, to prepare themselves for the Bar by a single year's unremitting study. Students are advised, however, to devote two years to their course in Law. The time thus obtained for reflection and mental digestion will secure a more thorough and accurate knowledge of law, and a stronger and more comprehensive grasp of fundamental legal principles.

There are two classes—Junior and Senior; and in each class there are six recitations or lectures a week. The Senior Class recites from ten to half-past eleven each day; the Junior from twelve to half-past one. Students who take the Junior Course only in Law, should pursue with it one or more of the Academic

Studies to especially only in Losession) and Metaphys

Students reference.

A Moot Practice and by the stud Studies taught in the University, the course in Rhetoric being especially recommended. Students who take the Senior Course only in Law (having completed the Junior Course the previous session) are advised to pursue at the same time the course in Metaphysics and Logic.

The studies of each class are divided into those of the First Half-Session, and those of the Second Half-Session. The Second Half-Session begins February 1. In the Junior Class the studies of the two Half-Sessions are distinct, and students may enter at the beginning of the Second Half-Session, and thus materially lighten the labor of completing the course the following year.

The instruction is by text-books, supplemented by a full course of printed lectures. Written opinions are required every week of the Senior Class upon cases stated, involving the principles of law under consideration. By a special arrangement with law publishers, students can procure text-books at greatly reduced rates.

The following are the text-books required, in the order in which they are studied:

JUNIOR CLASS.—First Half-Session:—Introductory Lectures; Blackstone's Commentaries, Book II; Williams on Real Property; Printed Lectures on Real Property; Smith's Law of Contracts; Printed Lectures on Domestic Relations; Blackstone's Commentaries, Book I; Schouler's Personal Property, Vol. II (Law of Sales).

Second Half-Session:—Schouler's Personal Property, Vol. II (Accession, Confusion, and Gifts); Hutchinson on Carriers; May's Criminal Law; Blackstone's Commentaries, Book IV; Cooley's Principles of Constitutional Law (Law Students' Series); Woolsey's International Law (5th edition). For reference: The Federalist.

SENIOR CLASS.—First Half-Session:—Printed Lectures on Corporations; Printed Lectures on Negotiable Paper; Bispham's Principles of Equity; Bigelow on Torts (Law Students' Series); Blackstone's Commentaries, Book III.

Second Half-Session:—Stephen on Pleading (Tyler's ed.), with Lectures; Langdell's Summary of Equity Pleading (2nd ed.); Greenleaf on Evidence (14th ed.), Vol. I; Blackstone's Commentaries, Book III; Printed Lectures on the Conflict of Laws.

Students should have the Codes of their several States for reference.

A Moot Court is conducted in connection with the Lectures on Practice and Pleading. A "Law Debating Society" is conducted by the students themselves.

ntal legal

Students have free access to the Law Library, which adjoins the Law Lecture Room, and contains a large collection of standard

text-books, besides English and American Reports.

The Examinations are held at the end of each Half-Session. They are four in number, viz., an Intermediate and Final Examination in the Junior Class, and an Intermediate and Final Examination in the Senior Class. Each examination is divided into two parts, which, for convenience, are held on different days; but the two parts are considered and valued as constituting but one examination.

Students who pass satisfactorily the Intermediate Examinations are not required to stand again upon the subjects covered by them at the end of the session. And students who pass satisfactorily the Examinations upon the Junior Course one session are not required to stand again upon the subjects covered by them when they take the Senior Course the next session. For graduation, the student is required to obtain such mark on every examination as will, when combined equally with his sessional standing, make an average of not less than 80—100 being the maximum.

The examinations are meant to be rigid, and they require a thorough acquaintance with all the subjects studied. There is no preliminary examination for admission into the Law School.

The Degree of Bachelor of Law is conferred on students who satisfactorily pass the examinations upon the entire course. Certificates of Distinction are conferred upon the Junior Course.

The students of the Law Class are authorized by the Faculty to select one of their number as "Law-Class Orator," to deliver an Oration at the Commencement of the University.

The Hamilton Law Scholarship, established by Mrs. Virginia C. Hamilton, of Augusta County, Va., is awarded to the student attaining the highest proficiency in the Junior Class in Law.

Messrs. T. & J. W. Johnson & Co., Law Publishers, of Philadelphia, have offered a copy of Smith's *Leading Cases*, in four volumes, as a prize to be awarded, under the direction of the Faculty, to that student in the Graduating Class in Law who shall have prepared and submitted the best essay on a legal subject.

The Law School opens at the same time with the Academic Departments of the University, the next session beginning Thursday, September 20, 1888.

EXPENSES FOR SESSION OF NINE MONTHS.

Total University Fees (except Elocution) \$ 75	00
Meals, Furnished Rooms and Servants' attendance at University	
Boarding-House for 9 months @ \$12 108	00
Washing for 9 months @ \$1.50 13	50
Fuel, Lights, Towels, etc. (estimated) 13	50
Total necessary expenses\$210	00

Students who take both classes in one year pay \$75, as above. Those who take one class only, in Law, pay the same, but are entitled to enter the Academic Schools of the University without further charge.

EXAMINATIONS.

These are conducted chiefly in writing, and are the Intermediate and Final, held, the former near the middle, and the latter near the close of the session.

The examinations are conducted by the Professors. No certificate of any kind is conferred, except after thorough and satisfactory examination upon the prescribed subjects.

The failure of a student to stand any of the regular examinations of his class shall subject him to censure, and he shall forfeit his place in the class, unless such failure shall be excused for reasons deemed sufficient by the Faculty.

CERTIFICATES AND DIPLOMAS.

- I. As evidence of distinguished attainments in a Junior or Intermediate Class, a CERTIFICATE OF DISTINCTION will be conferred.
- 2. As evidence of *satisfactory attainments* in any department, or complete subject therein, a CERTIFICATE OF PROFICIENCY will be conferred, with the title of PROFICIENT.
- 3. As evidence of distinguished attainments in any department, or complete subject therein, a Certificate of Distinguished Proficiency will be conferred, with the title of Distinguished Proficient.
- 4. Diplomas, attesting the degrees of the University, are conferred by the Board of Trustees, on the recommendation of the Faculty.

Before receiving a CERTIFICATE OF PROFICIENCY on any subject, students are required either to complete the course of Junior English, or to pass a special examination in English at a time prescribed by the Faculty.

DEGREES.

I. ACADEMIC.

I. BACHELOR OF ARTS (A. B.), conferred upon students who successfully complete the studies mentioned in any one of the

following courses:

Course A.—The entire course of Latin, Greek, Rhetoric, Moral Philosophy, and Modern History or English Literature; the Intermediate course of English; the Junior course of Mathematics; the course of Chemistry, Natural History, and Geology, or the Junior course of Natural Philosophy, Surveying, and Astronomy; the entire course of German and the Junior course of French, or the entire course of French and the Junior course of German.

Course B.—The entire course of French, German, English, Rhetoric, Moral Philosophy, and Modern History; the Intermediate course of Mathematics; the Intermediate course of Latin and Greek, or the entire course of Latin and the Junior course of Greek; the course of Chemistry, Natural History, and Geology, or the Junior course of Natural Philosophy, Surveying, and

Astronomy.

Course C.—The entire course of Mathematics, Natural Philosophy, Chemistry, Natural History, Geology, French, German, Rhetoric, and Moral Philosophy; Descriptive Geometry, Shades and Shadows, and Perspective; Surveying and Astronomy; the Junior course of Latin and Greek, or the Intermediate course of either Latin or Greek.

II. MASTER OF ARTS (M. A.), conferred on students who complete with distinction all the subjects embraced in either of the following courses, and who, moreover, make special attainments in *Course A*, either in Latin and Greek, or in French, German, and English, and, in *Course B*, in Mathematics, Natural Philosophy, Chemistry, Natural History, and Geology:

Course A.—The entire course of Latin, Greek, French, German, English, Rhetoric, Moral Philosophy, English Literature, and

Course B.—The entire course of Mathematics, Natural Philosophy, Chemistry, Natural History, Geology, French, German, Rhetoric, English Literature, Moral Philosophy, and Modern History; the entire course of one of the three subjects, Latin, Greek, and English, and the Intermediate course of the other two; Descriptive Geometry, Shades and Shadows, and Perspective; an elementary course of Surveying and Astronomy.

The applicant for any of the foregoing Degrees must submit to the Faculty a suitable Essay or Oration, to be delivered on Commencement Day if required.

III. DOCTOR OF PHILOSOPHY (Ph. D.).—This Degree will be conferred on any Master of Arts of the University who, for not less than two years after graduation, shall pursue at the University a special course of study in any one subject taught in the Academic Departments of the Institution. The one special subject shall have associated with it at least one subsidiary or affiliated study. It is expected that from time to time the candidate submit to his Professor, or the Faculty, evidence of independent research in his special line of study; that he stand at least two examinations during his course, and that he produce a thesis, or special essay, the final year, showing the progress he has made.

2. PROFESSIONAL.

IV. CIVIL ENGINEER (C. E.).—The requirements for this Degree are Certificates of Proficiency in Mathematics; Applied Mathematics; Chemistry, Natural History, and Geology; Natural Philosophy; French or German; and Plans and Reports upon assigned subjects.

V. BACHELOR OF LAW (B. L.).—This Degree is conferred on graduates in the School of Law and Equity.

SELECTION OF STUDIES.

Students are allowed to pursue such studies as they may select, if found prepared. But each student is required to attend at least fifteen lectures a week, or their equivalent; and no student is

allowed to leave any class without the permission of the Faculty. Students are assigned to their classes at the beginning of the session, according to their qualifications, as far as these can be ascertained, but will be liable at any time to a transfer to a lower class, when it is deemed necessary by the Professor.

While the course of study is elective, students will receive the advice of the President and Faculty with reference to the choice and arrangement of their studies, according to the circumstances

of each particular case.

For the benefit of students who are looking forward to the Degree of A. B., a schedule is here appended of the studies required for it, in the order of succession in which it is desirable that they should be pursued. In order to avoid conflicts of hours between the recitations in different classes, and for other obvious advantages, a conformity with the schedule here given is strongly recommended. The numbers in () show the number of hours per week for lectures and recitations.

FELLOWSHIPS.

The generous contribution has been recently made to the University of a sum, the annual interest of which is \$500, by H. H. Houston, Esq., of Philadelphia, for the purpose of endowing a permanent Fellowship, to be known as the "Howard Houston Fellowship," as a tribute to the memory of a deceased son. As other Fellowships may be founded, it is thought proper to state the design, conditions and requirements of this valuable appendage to the educational appliances of the Institution.

- 1. The design is to secure a more thorough and extended scholarship than can be attained in the time usually allotted to academic instruction.
- 2. The Fellowships will be restricted to graduates of this University.
- 3. They will be conferred for two consecutive years, and are not to be relinquished in any case until the end of that term, except for sufficient reasons, to be approved by the Faculty.
- 4. The recipient of a Fellowship shall reside in or near the University and pursue a special line of study looking to the degree of Ph. D., under the supervision of the Professor in the department he may select.
- 5. If required by the Faculty he shall give instruction in the University for not more than two hours per day.
- 6. He shall have access to the Library, class-room instruction and other privileges of the University, and shall receive a salary of \$500, or whatever smaller sum may be yielded by the endowment of the Fellowship to which he is appointed.

For information respecting the minor details of the conditions and duties of the Fellowships, application may be made to the President of the University.

HONORARY SCHOLARSHIPS.

These are intended to reward high attainments in scholarship, and, at the same time, to promote and secure general meritorious conduct. Under this head are two classes:

I. UNIVERSITY SCHOLARSHIPS.

These are six in number, one being conferred by the Faculty in each of the Departments of Latin, Greek, Natural Philosophy,

and Chemistry and Geology, and two in English and Modern Languages.

II. ENDOWED SCHOLARSHIPS.

These are four in number:

1. The *Taylor Scholarship*, endowed by Mrs. Fanny B. Taylor, of Baltimore, conferred by the Faculty upon the student attaining the highest proficiency in the Intermediate Class in Mathematics.

2. The Young Scholarship, endowed by Henry Young, Esq., of New York, conferred by the Faculty upon the student attaining the highest proficiency in Moral Philosophy.

3. The F. O. French Scholarship, established by F. O. French, Esq., of New York, conferred by the Faculty upon an undergraduate selected from any department.

4. The Hamilton Law Scholarship, established by Mrs. Virginia C. Hamilton, of Augusta County, Va., entitles the recipient to attend the School of Law and Equity for one session without the payment of tuition and fees.

All the Honorary Scholarships entitle the students appointed to them to attend the Academic Departments, the Department of Applied Mathematics, and the Junior Class in Law, the following session, without the payment of tuition and fees. In addition to the tuition and fees, the F. O. French Scholarship pays about \$225, making the total value \$300. The money is paid in instalments during the session following the appointment.

ALUMNI SCHOLARSHIPS.

Each Local Alumni Association is authorized to nominate—subject to the approval of the Faculty—one student each year to a scholarship for one session, on the following conditions: I. That the nominee shall be of studious habits and of good moral character; 2. That he shall be qualified to enter the regular classes of the University; 3. That he shall not have been a student in this Institution. Such students shall be admitted to any of the Academic Departments free of all charges, except those mentioned under Special Privileges.

SPÈCIAL PRIVILEGES.

I. By enactment of the Board of Trustees, the Faculty are authorized to admit into the University, without fees, candidates for the Christian ministry, provided the said candidates shall be unable to pay the regular charges, and that they shall be recommended by some competent ecclesiastical authority as suitable persons to be educated for the ministry. If any student who has been admitted on these terms shall afterwards decline entering the ministry, his fees shall be held as debts due to the University.

II. The sons of ministers of religion, actually engaged as such, and unable to pay the regular fees, or the sons of such ministers deceased, may be admitted without charge, upon satisfactory testimonials to this effect.

III. In order to establish a system of post-graduate study, such as is necessary to the development of University education, and to extend its advantages as widely as possible, the Faculty may admit without fees all graduates in regular academic degrees of this University to all the privileges of the Academic Departments.

Board and room rent are not included in the above provisions. Any of the privileges above offered may be withdrawn by the Faculty, whenever the recipient, by improper conduct, or by a failure to make due progress in his studies, shall show himself unworthy of them. These privileges are for one year, but will be renewed by the Faculty upon application.

These privileges do not apply to students taking professional courses, nor to any person not prepared to enter the regular classes of the University.

PRIZE MEDALS.

1. The *Robinson Prize Medals*, which are three in number, and of equal value, are named and conferred as follows:

The Robinson Medal of Ancient and Modern Languages, in Latin and Roman History, Greek and Greek History, French and German.

The Robinson Medal of Philosophy and Literature, in Moral Philosophy, English, Rhetoric, English Literature, and Modern History.

The Robinson Medal of Mathematics and Science, in Mathematics, Natural Philosophy, Chemistry, Geology, Surveying, and Astronomy.

The recipient of either of these Medals must have attained distinguished proficiency in each of the studies involved, and an average examination grade of eighty per cent. in the entire group of subjects required for the medal in question. No student shall receive the same prize twice.

For further information apply to the Clerk of the Faculty.

2. Two Gold Medals, for the encouragement of Oratory and Elocution. The first, called the Orator's Medal, and of the value of \$50, is awarded to the author of the best original speech, and the second, the Declaimer's Medal, valued at \$30, to the best declaimer of a selected piece, in a public competitive trial, during the week of Commencement. Each of the two Literary Societies chooses two members to compete for each of these Medals, and the decision on the merits of the contestants is made by a committee of gentlemen not connected with the University. The medals are provided out of the funds of the University, and delivered by the President on Commencement Day.

3. The Santini Prize Medal, which was established by JOSEPH SANTINI, of New Orleans, is conferred by the Faculty upon the writer of the best Essay published during the session in The

Southern Collegian.

COMMENCEMENT ORATIONS.

1. The *Cincinnati Oration* is awarded to that graduate who shall be judged by the Faculty to have attained the highest degree of general scholarship, and is delivered at the Commencement next succeeding graduation.

2. The Valedictory Address is awarded to that graduate who

shall be selected by his fellow-graduates.

3. An Essay, called the *University Prize Essay*, is awarded by the Faculty to that student who may have submitted the best Essay, in such manner as may be prescribed by the Faculty.

4. The Law-Class Oration is delivered by a graduate of the Law Class, selected by his fellow-students in the Law School.

Not more than one of the above Essays or Orations shall be awarded to the same student in one year.

ADMISSION.

Applicants for admission who have been students in other institutions must produce evidence of having left them in good standing.

Students under sixteen years of age will not be received, except by special permission of the Faculty.

No student will be permanently enrolled in any class until he has matriculated.

No formal entrance examination is held. Each Professor holds such examination as he deems best, to find out what class in his department the student is prepared to enter. There are preparatory classes beginning the study of Latin, Greek and Algebra, but it is better for students to come prepared to enter the Junior classes of these departments. The Junior classes in French and German require no previous knowledge of these subjects.

GOVERNMENT.

The government of the University is administered by the President and Faculty, in accordance with a Code of Laws enacted by the Board of Trustees. The President devotes himself to the duties of his office, occupying a room in the University buildings, to which the students have access at stated times. He presides at the meetings of the Faculty, and, by the reports of the several Professors, is made acquainted with the standing and deportment of each student. All cases of irregularity receive his personal attention.

Students receive the admonition and counsel of the President before being subjected to any penalty, except in cases of flagrant offences. Those who are habitually neglectful of their duties, or who do not regularly attend their classes, will be required to withdraw from the University.

No student is allowed to leave the town during the session without the permission of the President, nor to withdraw from the University without the consent of the Faculty, on the written authority of the parent or guardian.

REPORTS TO PARENTS AND GUARDIANS.

Regular reports of the progress and attendance of the students are made to the President. On the first of November, December,

d disnd an group shall

y and value in, and luring cieties and the itee of

on the The

ls are by the

who legree ement e who

best of the

ol. all be

ed by

February, April, May and June, a circular is sent to the parent or guardian of each student, showing his absolute and relative standing in his several classes, the number of his absences from his classes, and any other facts that it may be deemed proper to communicate. At the close of each term a similar circular is sent, setting forth the results of his examinations, and his standing for the term.

RELIGIOUS AND MORAL CULTURE.

Religious services are held every morning in the chapel.

The students are expected to attend these exercises, and the church of their choice at least once on Sunday. Opportunities are also afforded for attending Bible classes every Sunday.

A "Young Men's Christian Association" exists among the students, and has been found a most efficient agent in promoting their moral and religious welfare.

THE LEWIS BROOKS MUSEUM.

This most attractive and valuable addition recently made to the educational appliances of the University, with all the expenses incurred in its reception and arrangement, is the gift of a generous friend of the University and of science, the late Lewis Brooks, Esq., of Rochester, N. Y. The preparation of rooms and cases, and the orderly disposition of the contents of the Museum, were superintended in person by Prof. Henry A. Ward, of Rochester, to whose kindness, scientific skill and professional experience the University is greatly indebted.

The Museum comprises four distinct Cabinets:

 The Zoological, presenting in stuffed specimens and mounted skeletons representatives of the divisions of the animal kingdom —mammals, birds, fishes, reptiles, etc.

2. The *Mineralogical* and *Lithological*, containing an extensive assortment of minerals from various parts of our land and of foreign countries, many of them rare, and specimens of almost every variety of rock used for building and works of art.

3. The *Geological*, embracing an extensive collection of fossil animals and plants belonging to the fauna and flora of each geological age.

4. The *Botanical*, embracing an Herbarium of 5000 specimens mounted in walnut cases, a Portfolio of American trees, about 700 sections of various kinds of wood, numerous rare fruits and models of flowers, and mounted botanical charts.

Visitors, as well as students, have daily access to the Museum during University hours.

BUILDING AND ORNAMENTAL STONES.

To John S. F. Bachen, Esq., Chicago, Ill., the University is indebted for an interesting and valuable addition to its facilities for scientific instruction, in "The John S. F. Bachen Collection of Building and Ornamental Stones," which contains specimens of the material employed for structural and ornamental purposes in various public edifices both in America and Europe.

LIBRARY.

There are about twenty thousand volumes in the Library, to which the students have access under stated regulations.

In connection with the Law School, and apart from the Library of the University, there is a valuable collection of Legal Text-Books and Reports, to which additions are made every year.

READING ROOM.

The Reading Room is well supplied with periodicals, literary and scientific, and is open to students during recitation hours every day.

GYMNASTICS.

There is a Gymnasium on the University grounds. Baseball and other athletic sports are encouraged by the Faculty.

The North River, a mile from the University, furnishes good rowing, and two Boat Clubs, the "Harry Lee" and the "Albert Sidney," have been organized. Each club selects a crew to engage in a boat race, which takes place during Commencement week.

LITERARY SOCIETIES.

The Literary Societies are: THE GRAHAM LEE SOCIETY, organized in 1809; and the Washington Literary Society, organized in 1812. These societies meet once a week for debate and other literary exercises. They have their own halls and libraries, and their influence upon the character and culture of the students is highly estimated, both by the Faculty and by the students themselves.

Each society celebrates publicly the anniversary of its foundation; the Graham Lee Society on the 19th of January; the Washington Society on the 22nd of February. On Commencement Day, an address is delivered before the two societies jointly by some gentleman chosen by them for this purpose.

For special encouragement in the art of Speaking, the Board of Trustees offer two Gold Medals, to be competed for each session by representatives chosen by the societies respectively. Further particulars are given on another page, under the title "Medals."

In connection with the final Celebration of the Societies, the Santini Medal is publicly conferred.

ALUMNI ASSOCIATION.

The Alumni of the University have had an Association for many years. Its object is to keep alive among the Alumni the sentiment of affection for their Alma Mater, and to unite the graduates of successive years by a common tie of fellowship. Its annual meetings are held at Commencement, when, after the transaction of business, an Anniversary Oration is pronounced by some alumnus chosen by the Society. The following is the present organization:

H. St. George Tucker, Staunton, Va., President.
M. W. PAXTON, Virginia,
W. T. Shields, Virginia,
D. C. Humphreys, Secretary.
J. L. Campbell, Treasurer.

Executive Committee.

SAMUEL J. GRAHAM, FRANK T. GLASGOW, W. T. SHIELDS, CHAS. A. GRAVES, M. W. PAXTON.

LOCAL ALUMNI ASSOCIATIONS.

Any organized body of the Alumni of the University, consisting of not less than seven members, having a president, and one

Virginia. Virginia. Virginia. Kentucky. or more vice-presidents, a secretary and an executive committee, and which shall maintain its organization by holding at least one meeting each year, is recognized as a Local Alumni Association. They tend to keep up, and give practical shape to, the interest felt by the Alumni in the well-being of the University, and it is earnestly hoped that other associations will be formed whenever circumstances will allow. Each Association is authorized to nominate one student each year to a Scholarship, as explained on page 44.

Below will be found the officers of the Local Alumni Associations that have been formed. The Presidents of these Associations are *ex-officio* Vice-Presidents of the Association at the University.

COMMENCEMENT EXERCISES.

These take place at the close of the session. On the Sunday preceding, a Baccalaureate Sermon is preached before the graduates and the students at large. On Commencement Day the names of the students distinguished in the several classes are announced; Certificates, Diplomas, and University Honors are publicly awarded by the President; and the Addresses of graduates, and the Prize Orations and Essays, are delivered. The celebrations of the Literary Societies and of the Society of the Alumni also take place in Commencement week.

SESSION.

The next Session begins September 20, 1888, and ends June 19, 1889.

EXPENSES.

The University fees (Elocution excepted) for the whole session are \$75, and must be paid in advance.

When a student, on account of his sickness, is necessarily withdrawn from the University before the beginning of the second term, one-half his fees will be refunded; but no fees are refunded after that time.

Students entering on or after the first of February are charged half the regular fees, \$37.50.

BOARDING.

At the University Boarding House, which is a building on the University grounds, occupied by a private family, meals can be had at \$10 per month; meals and lodging, including servants' attendance, \$12. Students lodging here furnish their own towels, blacking, lights and fuel. Fuel is furnished at cost.

The price of board in private families in town varies somewhat, but good board and lodging, including fuel and lights, can usually be had at from \$16 to \$20 per month.

Washing is not included in any of the above prices. It costs \$1.50 per month.

Board bills are expected to be settled monthly.

By getting board at the lowest rates, the necessary expenses of a student, including fees, but exclusive of books and clothing, may be reduced to about \$210, as follows:

University Fees (entitling a student to attend all depart-		
ments except Elocution)	\$ 75	00
Meals, furnished rooms and servants' attendance at Uni-		
versity boarding-house at \$12 for 9 months	108	00
Washing for 9 months at \$1.50	13	50
Fuel, lights, towels, etc. (estimated)	13	50
Total necessary expenses	\$210	00

Students may take boarding at such private houses only as the Faculty shall approve, and the Faculty may, at any time, require a student to change his boarding-house.

FUNDS OF STUDENTS.

Under a conviction that the unrestrained use of money on the part of students is the source of manifold evils, the Faculty would earnestly recommend to parents and guardians to deposit with the Treasurer of the University all the funds designed for their sons or wards, whether for regular charges of tuition and board, or for any other purposes.

It is the duty of that officer to keep safely the funds placed in his hands, and, with the approval of the President, to pay the above-named regular charges, and all bills for purchases made by the authority of parents or guardians, to whom a monthly statement of receipts and expenditures will be forwarded.

Unless the course here recommended is adopted, the Faculty cannot exert a control over the expenses of the students, and cannot be held responsible for them.

The laws of Virginia prohibit the crediting of students who are minors, except on the written permission of their parents or guardians, or of the proper authority of the institution. As the contraction of debt offers a constant temptation to extravagance, the Faculty ask the influence of parents in restraining this evil.

LOCATION.

Lexington is situated in the County of Rockbridge, in the Valley of Virginia, and is surrounded by beautiful mountain scenery. The healthfulness of the climate is attested by the fact that no student at the University has died of disease for a period of more than thirty-five years. For students subject to miasmatic disease, residence here often produces the most beneficial effects.

ROUTES.

Students from the West, via Huntington, may reach Lexington by taking the Richmond and Alleghany Railroad at Clifton Forge, a station on the Chesapeake and Ohio Railroad, or by the Valley Railroad from Staunton. Students from the South or East take the Richmond and Alleghany Railroad at Lynchburg, or the Valley Railroad at Staunton.

SUMMER BOARDING.

Students who do not wish to return home during the vacation can procure board in Lexington at reduced rates. Boarding can also be had on reasonable terms at the Summer Resorts in the neighborhood. The Rockbridge Baths, the Rockbridge Alum, the Cold Sulphur Springs, and the Natural Bridge Hotel, are within the county and convenient to Lexington.

DONATIONS TO THE LIBRARY,

DURING THE YEAR ENDING MARCH 31, 1888, HAVE BEEN RECEIVED FROM:
